

## BIG VICTORY FOR POLISH FORCES

Bolshevik Troops Driven Back North of Kiev and Black Sea Port Captured.

## THE LEAGUE OF NATIONS

Austria and Hungary May Be Admitted at the First General Meeting—French Commission Will Report on German Disarmament in the Ruhr District—Another Typical Statement of President Wilson Regarding the British Navy Is Made Public.

Farsaw, May 12.—Polish and Ukrainian forces have struck a mighty blow at the Russian Bolshevik front far north of Kiev, and have driven the enemy back along the Beresina River.

Paris, May 12.—Confirmation of the reports that Odessa, Russia's most important outlet on the Black Sea, had been occupied by troops of General Petlura, the Ukrainian commander, has been received by the Ukrainian Press Bureau here.

The League of Nations. Geneva, May 12.—Austria and Hungary may be admitted to the League of Nations at its first general meeting this summer, it is learned from a high source. Germany, Bulgaria, and possibly Turkey will be made members at the second session, the date of which has not been fixed.

Coblentz, May 12.—A French commission is now on its way to the Ruhr district to satisfy itself of the truth of the German statement that the Reichwehr troops have been reduced to the limits prescribed in the Treaty of Versailles.

On the List. Berlin, May 12.—The men accused of inhumanity are named in a new list of Germans accused of violations of the law of war, which has been presented to the Government by the Allied Nations.

Typical of Wilson. Washington, May 12.—A remarkable cablegram sent by President Wilson to Admiral Sigmund, dated 1917, was read by Secretary Daniels today before the Senate Naval Affairs Committee.

Conservative Socialists. New York, May 12.—Conservatives in the Socialist Convention, led by Morris Hillquit and Victor Berger, were overwhelmingly victorious on Tuesday in their efforts to have the party accept a declaration of principles that would cut loose from the radical and hackneyed declarations of the past.

DAIRMEN'S MEETING. Starting at Salmon Arm on the morning of the second of June, a party of representative dairymen and agriculturists will tour the Okanagan valley with a banquet at Kelowna.

MAY DEPORT GERMAN. Washington, May 11.—President Wilson today signed a bill amending the deportation laws so as to make possible the deportation of Germans and other aliens who were interned during the war as enemy aliens.

## A FINE SHOW

University Players Score a Big Hit in Their Presentation of "Green Stockings."

From the rise of the curtain until the clever climax in the last scene there was not a dull moment in the sparkling production and mirth-compelling comedy, "Green Stockings," presented at the Empress on Tuesday night by the University Players. We doubt if a better pleased audience ever streamed out of the doors of the theatre at the conclusion of any amateur entertainment in the history of Vernon, and it is a genuine pleasure to be able to accord praise that was so thoroughly well deserved to this remarkably clever company which is composed of students of the University of British Columbia.

While every member of the company gave full satisfaction, it may perhaps be said that on the whole a higher level was reached by the ladies of the cast than was attained by the male characters. At any rate, it is beyond question that the honors fell to Miss Dorothy Adams in her piquant and skilful interpretation of the role of the heroine, and Miss Isobel Miller as "Aunt Ida." Miss Adams sustained her part to perfection (and perfection is a big word when used in this connection) while in some of the scenes—notably when she suffered from an attack of hysterics, and when she toyed unmissably with the brandy decanter—Miss Miller's performance touched a very high peak.

## M'LEAN APOLOGIZES FOR HIS STATEMENT

Colonels Peck and Cooper Will Again Sit on Pensions Committee.

Ottawa, May 11.—The resignations of Col. C. W. Peck, C.C.C., and Col. R. C. Cooper, from the pensions committee have been withdrawn.

A statement from Brig-Gen. H. H. McLean, apologizing for any offense which his words may have unintentionally have caused to returned soldiers, their wives or widows, has been placed on the records of the committee and the whole matter, which for a time threatened to disrupt the committee, has been settled.

Brig-Gen. McLean's statement which was read at a brief private meeting of the committee this afternoon, is as follows: "There has been a distinct misunderstanding as to words used by me in the selection committee on pensions. This circumstance I regret exceedingly and nothing was further from my mind than to reflect in any way on the soldiers or their dependents, and while I did say on that occasion, I desire to apologize for any offense which my words may have unintentionally caused to the returned soldiers, their wives or widows."

COLDSTREAM COUNCIL MEETING. The regular monthly meeting of the Council was held on Wednesday the 6th inst. at 12:30 today. The members present were: Messrs. Peck, Cooper, and Kinloch being present.

Other matters affecting the company in connection with the taxation of irrigation works this year and the non-service of domestic water to users on the Buchanan line were discussed. The Finance Committee recommended payment of accounts amounting to \$1687.58, which were duly passed.

GEN. CURRIE ACCEPTS. Montreal, May 12.—Lieut.-Gen. Sir Arthur Currie has accepted the position of Principal of McGill University in making this announcement the Government stated they had sought a man of organizing ability, and with qualities of leadership and inspiration, rather than one with an academic record. They had been advised by Sir Auckland Geddes and by leading educationalists of Britain to get Currie if they could.

PREMIER BORDEN BACK. Ottawa, May 12.—Sir Robert Borden arrived in Ottawa at 12:30 today, looking tanned and much improved in health as a result of a holiday of over four months in the South. Lady Borden accompanied him. The Premier left Ottawa on January 1st, and this has been the most extended holiday of his life. A number of members of the House, and the Cabinet, as well as a representative of the Governor-General, were at the station to greet him.

## SCHOOL REPORTS

Honor Rolls in the Public and High Schools for the Month of April.

## WILSON CRITICAL OF BRITISH NAVY

Secretary Daniels Reveals Text of Confidential Address Delivered by the American President.

Washington, May 11.—President Wilson's hitherto unpublished war instructions to the officers of the Atlantic fleet, given in person on the quarterdeck of the battleship Pennsylvania on Aug. 11, 1917, and bidding them "throw tradition to the winds," strike the word prudent from their vocabularies and "do the thing that is audacious to the utmost point of risk and daring," were made public here today by Secretary Daniels.

In laying the text of his remarks before the Senate naval investigating committee, Secretary Daniels said they showed the "bold and vigorous" policy the president had outlined for the navy.

"Do not stop to think what is prudent for a moment," said the president. "You will win by the audacity of method when you cannot win by circumspection and prudence."

"I think that there are willing ears to hear this in the American navy and to hear this in the American navy because that is the kind of folks we are."

"There will have to come a new tradition into a service which does too audacious and imprudent things."

The president also expressed his dissatisfaction with progress in regard to the crushing the submarine menace.

The British admiralty had met American suggestions with what amounted to statements that "it never had been done," the president added.

Attitude Percentages—Div. I, 93.7%; Div. II, 98.16%; Div. III, 82.9%; Div. IV, 90.38%.

## CARRANZA'S RULE REACHES AN END

Mexican Government Has Been Overthrown and the President Captured by Rebels.

Mexico City, May 10.—The Carranza government is overthrown. President Carranza himself has been captured by the rebels and Generals Obregon and Gonzalez, heads of the revolution, which began in Sonora April 9, have established headquarters in this city.

Obregon has a large Mexican flag waving above his quarters and is receiving obsequious deputations of citizens today.

An unconfirmed report said General Juan Barragan, Carranza's chief of staff; General Murguia, commander of the garrison at Mexico City, and General Uruiz, were captured and taken to Vera Cruz and executed. The same report said Candido Aguilar, foreign minister and General Diezuez were killed in battle with the revolutionists. Aguilar was a son-in-law of Carranza's.

Convoy Dispersed. A portion of the convoy which escorted President Carranza on his flight from the capital was attacked and dispersed by rebel forces with serious losses to the president's guard, according to General Obregon. No mention is made of Carranza's fate. His flight to Vera Cruz was blocked by rebels at the railroad stations at Esparanza and Matratra Heights, where he was taken.

The political prisoner massacre was ordered by General Francisco Murguia before he left Mexico City. Among the victims were "officer generals" Martin Telan, Juan Lechuga, Francisco Arizaga, Roberto Celado and others, said Obregon.

From Laredo, officers who are to form part of the new government to be set up, are coming, including General Villarreal, General Serrano and Yaguis. The Ojinaga garrison joined the revolutionists on Sunday and Carranza officers fled to Pinaldo.

Tampico, an important oil center, capitulated to Obregon's forces on Sunday without serious disorder. All indications point to the fact that the revolution to overthrow Carranza, hitherto successful, has been comparatively bloodless. Carranza's plans to fight the rebels were for naught when Carranza after his flight from Mexico City, deserted to the Sonora revolutionists.

## IMPATIENCE EXPRESSED

Interesting Revelation of Attitude Assumed Towards British Naval Methods by Chief Executive of the United States at the Time When His Country Entered the War—Throw Prudence to the Winds Was His Advice.

Washington, May 11.—President Wilson's hitherto unpublished war instructions to the officers of the Atlantic fleet, given in person on the quarterdeck of the battleship Pennsylvania on Aug. 11, 1917, and bidding them "throw tradition to the winds," strike the word prudent from their vocabularies and "do the thing that is audacious to the utmost point of risk and daring," were made public here today by Secretary Daniels.

In laying the text of his remarks before the Senate naval investigating committee, Secretary Daniels said they showed the "bold and vigorous" policy the president had outlined for the navy.

"Do not stop to think what is prudent for a moment," said the president. "You will win by the audacity of method when you cannot win by circumspection and prudence."

"I think that there are willing ears to hear this in the American navy and to hear this in the American navy because that is the kind of folks we are."

"There will have to come a new tradition into a service which does too audacious and imprudent things."

The president also expressed his dissatisfaction with progress in regard to the crushing the submarine menace.

The British admiralty had met American suggestions with what amounted to statements that "it never had been done," the president added.

Attitude Percentages—Div. I, 93.7%; Div. II, 98.16%; Div. III, 82.9%; Div. IV, 90.38%.

## THE BASEBALL SITUATION

Enderby Fan Sees Encouraging Prospect for the Vernon Club This Season.

An Enderby correspondent to the Okanagan Commoner sizes up the baseball situation this year as follows: "A majority of people in the North Okanagan have conceded Vernon the best chance of coping the honors this year and with their last year's line-up Vernon has a fine aggregation."

"I do not believe any official records were kept, but I think no one will dispute my belief that, collectively, Vernon took batting honors. And if Black stays with Vernon and keeps going as he did last year, his opponents won't have any runs to throw away."

"As for catching, Stator hasn't his equal in the league in pure good nature and ability. There were not many stolen bases chalked up against him last season."

"Kelowna suffered last season through lack of effective pitching. Rumor has it that they will field a very strong team this year."

"Armstrong, of course, is a non-entity as yet. They may win out but they should not be disappointed in the celery town if their favorites do not take the honors in their first start in several years."

"The very best of the season will be the strong into the fold."

"Enderby last year had a strong, working battery, but the batting averages were poor. This was due to two reasons. One, lack of practice; the other, blind batting."

"Enderby had good batters. At any rate we'll be fighting every inch of the way. Remember, Enderby, the championship is ours to defend."

## ANNOUNCES BOARD OF KETTLE VALLEY

D. C. Coleman, New President, Says Road to Operate Independent of C. P. R.

Vancouver, May 8.—Mr. D. C. Coleman, vice-president of the C. P. R. western lines, reached the city today and on Monday will make his first trip over the Kettle Valley line as president of that road, a post to which he was selected on May 5. As president of the Kettle Valley, he succeeds Mr. J. J. Warren, who has resigned on account of the increasing duties entailed in his position as president of the Consolidated Mining Smelting Co.

The other directors elected to the board of the Kettle Valley Railway are: Messrs. G. H. I. E. Ogden, J. J. Warren, J. J. Warren of Toronto and A. C. Flumerfelt of Victoria.

Mr. Coleman stated this morning that the change of directorate did not mean that the C. P. R. was taking over the Kettle Valley, which would continue to be operated, as in the past, as an independent road, except that the officers will report to him and he in turn would report to the shareholders.

The operating officials of the road are Mr. C. A. McCullough, general manager, and Mr. J. B. Fisher, traffic manager and controller, both of Penticton.

Mr. Coleman paid a high compliment to the retiring president of the line stating that he thought the people in the territory served by the Kettle Valley owed a debt to Mr. Warren.

He said: "In the construction of the line and since construction he has taken the greatest interest and the undertaking owes much to his great ability, cheery optimism and unflinching tact."

## TO CELEBRATE 250TH ANNIVERSARY

Hudson's Bay Company Will Provide Sports for Children in the Park and Dance Tonight at the Armory.

The park should be filled with visitors this afternoon when the celebration of the 250th Anniversary of the Hudson's Bay Company, Mr. Pout, the local manager will entertain the children of the city. A fine programme of sports with good prizes in all the events, has been prepared, and ample refreshments will be provided for the youngsters.

Races for boys and girls from six years up to seventeen years of age are included in the programme which also makes provision for the following events:

Tug of War—High School, 6 boys vs. Public School, 8 boys. Relay Race—Boys, 12 years and over. 3-Legged Race, 25 yards—Boys, 10 years and under. Potato Race—Girls, 10 years and under. Pick-a-back Tournament—Teams. Clovers Race. 3-Legged Race, 50 yards—Boys, 14 years and under. Potato Race—Girls, 14 years and under.

Relay Race—In team, boys any ages, 250 yards each, one-half mile. Relay Race—In team, girls any ages, 150 yards each, one-half mile. Sack Race, 25 yards—Boys, 14 years and under. Skipping Race—Girls, 14 years and under.

Rowing—my-land Parade. Blindfold Boxing Contest. Obstacle Race. The City Band will be in attendance and an enjoyable afternoon may be expected by all who can attend. The sports will start at 2:30 o'clock.

Dance at Armory. In the evening all patrons of the Hudson's Bay Store, who probably include everybody, are invited to a dance at the armory. No further invitation is needed than this notice and all will be welcome to join the happy throng.

## PRASE AND BLAME FOR LAND SETTLEMENT

Hon. Arthur Meighen Relates What Board Has Done for Returned Soldiers.

Ottawa, May 8.—In the House of Commons on Friday the soldiers' land settlement scheme came in for praise, and a cross-fire of criticism. The House was in supply on a vote of \$50,000 to carry on the work of the Soldiers' Land Settlement Board during the present fiscal year.

First, Hon. Arthur Meighen, Minister of the Interior, related the work of the board. The amount of loans approved to March 27 was approximately \$50,000. Soldiers' settlers on the lands whose loan had been approved totaled 15,232, and of this number 69 had already discharged their obligations in full. Under the agricultural branch 956 men had completed courses of training, and 600 were undergoing training. Of the \$50,000 asked for this purpose, all but \$2,000 would be advanced in loans.

Power's Criticism. Generally speaking, the committee, praised the work of the board, but Major Power of Quebec City South was especially critical. It was too early, he argued, to make any general criticism of the Soldiers' Land Settlement Act. But he thought the act had failed in its purpose in the older provinces. As a re-establishment measure, it provided for one class of returned soldier at the expense of all the rest.

Major Power offered resolutions passed at the last meeting of the Veterans' Association calling for a reorganization of the Soldiers' Land Settlement Board. Why had the Minister not acted on the resolution?

Mr. Meighen replied that he could not act on resolutions unsupported by evidence.

Meighen Smiles. But the men, Major Power insisted, must have had some facts at the back of their minds. Surely, he argued, Mr. Meighen did not think they passed resolutions merely for the pleasure of passing them.

## HOUSING LOAN REPORT ADOPTED

City Council Decides on Regulations to Govern Loans Under Soldiers' Housing Act.

At the City Council meeting on Monday night Ald. Costerton presented a verbal report for the committee of the whole Council which has had the matter of loans to soldiers under the Housing Act under consideration for several weeks. The committee has based its regulations upon those adopted in Vancouver, with such amendments as they considered proper. The gist of the plan is that the Council will loan to such returned men as comply with the regulations, and are eligible for loans 75 per cent. of the cost of their building and lots, the loan in no case to exceed \$3500, and the lots not to be valued at more than a sixth of the gross cost of the building. No person is eligible whose annual income exceeds \$2000. Plans and specifications shall be submitted to the City Superintendent, and approved by him.

At a former meeting Ald. Costerton had explained the reason for the city retaining an equity of 25 per cent. in such loans. He stated that the attitude of the committee on this question had been guided by a desire to protect the city which was responsible to the Government for the repayment of these loans. Much as they desired to see houses erected under this plan, he said, it must be done on a basis, at the particular period the cost of building is abnormally high, and the city must see that it is secured so that in the event of a man relinquishing his agreement after a few years, when hard times and decreased values might befall the city, it would be secured against what might otherwise prove to be a heavy loss.

In Other Cities. Despite the fact that City Clerk Edwards stated that he had ascertained that Kelowna and Kamloops were issuing loans under the Act without any restriction beyond a deposit of 25 per cent. as required in the Government regulations, the report was adopted without discussion. The amount at the disposal of the city is \$20,000, and loans will be made in the order in which applications are received.

Railway Crossings. A communication was read from T. C. Macnabb, Divisional Superintendent of the C. P. R., in which he drew attention to the fact that there are eleven highway crossings in the city, and he suggested that it would be of mutual benefit to the city and the railway, leaving for the purpose of traffic Elm Street, Schubert Street, Barnard Avenue, Coldstream, and Seventh Streets. He asked if the Council would co-operate with the railway in this matter?

This would mean the closing of the crossings on Lorne, Pace, North, Mission, Gore and Price Streets, and the Council was apparently not disposed to view the proposal with any degree of favor. Doubt was expressed as to whether property owners would be able to locate their houses on the streets, and it was finally decided, upon the motion of Ald. Costerton and Megaw to refer the matter to the City Solicitors for an opinion.

Other Communications. The Board of School Trustees wrote asking permission to erect a shelter shed for horses of out-of-town pupils on the right-of-way on Fuller Street, where it corners on Mason Street.—The permission was granted.

Geo. Mickleborough submitted for approval plans of a sub-division of the hospital property on Ellison Street.—This matter was referred to the City Superintendent for a report.

Iva McLean asked to have some stumps removed from the middle of the road at the north side of her house on North Street and the street light replaced at her corner.—Referred to the Board of Works and the Electric Light Committee.

The Okanagan Electric asked for permission to install an electric stove at Capt. Carow's residence.—It was referred to the Electric Light Committee.

G. A. Hankey & Co. asked for sewer connections for several properties.—Referred to the Board of Health.

Grant for City Band. Messrs. Percy Cooper and R. R. Campbell addressed the Council on behalf of the City Band, asking for a grant of \$500. They explained that at a recent meeting it was found that it would require about \$1500 to finance the band this season. The institution was at present somewhat disorganized, and unless assistance was obtained to pay the band's expenses and provide other necessary expenses for up-keep, Vernon would probably be without a band this year. It was proposed to give open air concerts in the park during June, July and August if the necessary funds were secured.

The City Mayor assured the deputation that the Council recognized that the band was a fine asset to the city, and all possible assistance, he felt sure, would be given, though he did not know how much the Finance Committee could spare at this late date, as now that the tax rebate system had been abolished it was imperative that all appropriations fall within the estimates adopted when the rate was struck.

### LISTINGS WANTED, PLEASE—ALL KINDS

A BUILDING SUITABLE FOR GARAGE, and repair shop, furniture store or warehouse, on valuable corner, with modern rooms, bath, plastered, etc. All combined. Building in splendid shape and an absolute bargain at \$2000; very easy terms. Price to be raised in one week.  
34 ACRES, 18 acres cultivated, 1 1/2 acre bearing orchard, small fruits, 7 acres alfalfa, balance in spring crop. Semi-modern house, barn, silo, etc. electric light, phone. \$6000; terms. As going concern with 14 head cattle, team, sow, 40 cords wood, furniture, \$8500; terms. Snap, quick action. Phone 422.  
A NICE LITTLE HOUSE close in. \$825, easy terms.  
10 ACRES AND GOOD HOUSE close in. Orchard, irrigation. This is a good buy at \$4600 on very easy terms.  
TWO DINKY LITTLE BUNGALOWS—Give me an offer when you have seen them. I'll sell 'em to you.  
7 ACRES close in; good creek; choice stuff. \$2500. Snap.  
321 ACRES Wood's Lake; fine timber. \$1200.  
EXCELLENT HOUSE, 5 rooms, choice location; large verandah. This is really a "super snap" at \$1200. Don't miss this. Very good.  
MODERN 12-ROOMED HOUSE, spacious garages, central, nice in-come from rooms. This is well worth investigating, and can be bought at a price that shows a good investment. Let me show you this.

### BUSINESS OPPORTUNITIES

Do you want the Lake Shore Hotel? If so, hurry up, or you'll be too late.  
This week—

#### THE VERNON STEAM LAUNDRY

Just think this matter out sensibly. Here are we Vernon people sending our washing to the Chinks, or to Kelowna, or any old place, and there stands that laundry, equipped ready for immediate use, and nobody has the pluck to start her going. This opportunity is a glaring, you surely must see that, so if you are interested in a genuine proposition such as I offer, call in to see me. The whole outfit can be bought at a bargain; why not form a company and go out to it? They'll think we don't do any washing in Vernon, soon, if we don't get a move on. Come along and talk it over. Why not?

Office: 7th Street, Vernon, B. C.

### HOUSING LOAN REPORT ADOPTED

(Continued from Page 1.)

Ald. Costerton, chairman of the Finance Committee, said it was unfortunate that this request had not been presented before the estimates were adopted, as the only chance now was to squeeze something out of the contingency fund, which already had been subjected to unexpected claims. He thought a grant of \$600 was out of the question; but the committee would give the request as favorable consideration as possible and report at the next meeting.

#### Reports.

The Water Committee reported that they recommended that connection be granted W. L. Simmons from the bottom of the intake pipe opposite his house, he to pay all expense of same and to the same rate as the rate on an outside connection.

This committee further reported that they could only grant A. C. Carter's application for water on condition that he pay 75¢ towards cost of same, the estimated cost being \$150.

A report was adopted from the Finance Committee recommending payment of the usual batch of current accounts and time sheets.

#### Near Beer.

The matter of regulating the sale of near beer was brought up by Ald. Brandon, but the Council appeared to be rather at a loss as to the best means of dealing with it, or what authority they possessed in the matter. It was pointed out that the Prohibition Act gives permission to sell this beverage, and that vendors were operating only under the provisions of business license. It did not seem any more possible to cancel a licence of this kind than it would be in the case of a grocer who was accused of profiteering.

It was finally moved by Ald. Brandon and Megaw, that a committee be appointed to draw up a by-law covering the sale of near beer, if on enquiry from the City Solicitor it is found that the city has such power.

The motion was carried, and the Mayor appointed Ald. Brandon and Megaw as members of this committee.

#### Curfew By-law.

Ald. Costerton said he had been requested to bring up the matter of a strict enforcement of the curfew by-law. This provides that children under 15 years of age shall not be permitted on the public streets between the hours of 9 p.m. and 6 a.m., unless accompanied by a parent or guardian, and that the bell shall be tolled at 9 p.m. each evening.

His Worship said that the matter had also been brought to his attention, several complaints being made concerning disturbance and noise created by children at night.

Ald. Ellison suggested that this question was dependent to some extent upon what was done regarding daylight saving, which he understood was to come up for a decision shortly. In this matter the Mayor stated that Supt. Macnab had said that if a daylight saving plan was inaugurated in the Okanagan the E. & O. time schedule

would be changed to meet it. He thought that a great majority of the citizens would favor the adoption of such a plan again this year. It was doubtful, however, if the Council had authority to pass a by-law, and the question was being taken up with the City Solicitor.

After some further discussion of an indeterminate nature, it was moved by Ald. Brandon and Ellison that the Council declare itself in favor of daylight saving provided that satisfactory arrangements can be made with the various business interests.—Carried.

#### Pound By-law.

Mayor Fitzmaurice drew attention to the altogether inadequate schedule of fees provided in the present pound by-law, and said that the Police Commissioners had requested that they be increased.

At his suggestion Ald. Costerton gave notice that at the next meeting he would introduce an amendment to this by-law.

#### The Park.

As representative of the Vernon Amateur Athletic Association, Ald. Ellison said that he had been requested to ascertain if the Council desired the Association to have full control of the park, and to introduce an amendment to this effect.

The meeting adjourned after passing a resolution for supplies from the City Clerk.

Ald. Ellison was not present at this meeting.

### WHAT BRAINS OF GREAT MEN SHOW

(From The Mail and Empire.)

To scientists everywhere the work of the Wistar Institute in Philadelphia is well known, and its reports are awaited with keen interest, but the general public knows little of the Institute, which fact has led Dr. W. H. Mallou to write for the "Philadelphia Inquirer" an account of its achievements, based upon recent publications. The object of the Institute is to study the human brain in an effort to understand more clearly its functions, its diseases, and its peculiarities with relation to the known character of the former owner.

Needless to say, the studies are all post-mortem. It is yet beyond the power of science to observe the brain functioning in life, though this disability may yet be overcome by the aid of moving pictures, cinematography and the Roentgen ray. For a long time past it has been the custom of distinguished men to leave their brains, when they have ceased to have any use for them, to scientific bodies for research purposes. The Wistar Institute is described by Dr. Mallou as the American clearing-house for dead brains. Moreover, between this Institute and similar bodies in Europe there is going on a constant exchange not only of opinions and discoveries, but of the actual brains themselves. It is

said that the brain of Prof. Cope, most famous of American naturalists, has crossed the ocean not fewer than seven times.

#### Cannot Tell by Weight.

One of the most interesting facts established as a result of these international investigations is that the weight of a man's brain is not a test of his ability. The assumption that a large cranium must necessarily be packed with useful brains appears to be a fallacy. A man may have a small head and be a genius; he may have a large head, an extremely heavy brain, and be a bore. It all depends where the weight is found, whether in the back part of the head or in the front. If it is in the front the chances are that the owner is a man of fine intellect. If it is at the back, the indication is that the owner would have been a representative and successful cave man. The cerebellum or back brain was the first part of man's brain to be evolved. It takes care of the motor impulses, the muscular action. This was the sort of brain that man needed when he was emerging from savagery and when his whole thoughts were concerned with the search for food, for a mate, and in combatting his enemies.

#### The High Forehead.

The real grey matter is the cerebrum, which has grown with the ages forward and backward, in the higher civilization crowding the cerebellum into a smaller space than it occupied in a hundred thousand years ago. To show how little mere weight has to do with cerebration, it is calculated that the average man thinks with nine billion brain cells, whose combined weight is less than one per cent. of the entire brain. Nor is the shape of the head an infallible guide. The man of intellect, as a baby and in his earlier years, has probably a head of normal shape. As he thinks and uses his higher brain centres, the interior brain grows and gives the wide, high forehead which marks the thinker. On the other hand, wide, high foreheads may be inherited without having brains inside them. The brain of a baby is smooth, like its skin. The brain of an adult is covered with indentations, wrinkles, ridges and lines, each one of them the result of thought. The deeper are the ridges, the more frequent the convolutions, the greater the proof of high intellectual quality. Mental toil leaves its marks as indelibly upon the brain as physical toil does upon the hands.

#### What the Brain Is.

One part of the brain whose function has hitherto been rather a mystery is called the corpus callosum, buried deep in the brain above the ear, and touching both the cerebrum and the cerebellum. It has recently been established, so scientists believe, that this callosum is the grand central reference room and governor of the whole brain, its chief executive. Upon how big it is, how complex and how capable depends the mental greatness of the owner. The brain itself is literally a telegraph and telephone exchange, a library reference, an assembling place of facts and an interpreter of sensations. It is believed that some thoughts are like direct telephone calls, and are

answered immediately by a single group of cells. Others, on the contrary, demand co-operation among many groups in order to be created. What new light may be cast upon the study of the human brain when the various experiences of observers in the war are collated, we do not know, but undoubtedly there have been tremendous opportunities for advancing human knowledge along these lines in the past five years.

#### Weight of a Brain.

The weight of the average brain is slightly less than three pounds, in a man, and less in a woman. A study of the brains of more than one hundred eminent men shows that few weigh more than three pounds and a half. The heaviest of brains is supposed to have been that of Oliver Cromwell, which weighed five pounds and a quarter, although it is said to have been outweighed by the brain of Byron, but since nobody knows who performed the latter autopsy, and as the result was not announced for a year and a half after the poet's death, the accuracy of the statement is questioned. In regard to Cromwell's brain, it is interesting to note that there are three different stories, each claiming as having been worn by the Lord Protector, and that the brain was weighed in three different countries, without any variation from the amazing figures. Turgenyev had an extremely heavy brain. Walt Whitman's brain, though it could not be weighed, is supposed to have been somewhat lighter than that of the average. George Grote, the English historian, is said to have had the most perfect brain of the highest organization, and it weighed slightly more than three pounds. Lincoln's brain, though destroyed by the bullet of an assassin, is reckoned to have been of average weight.

### GERMAN PROPAGANDA BY WIRELESS

Madrid, May 10.—Press despatches may be heard between Germany and Spain by wireless, it was announced today. Most German correspondents, however, recently have left this coun-

try, and consequently the services will be used principally for German propaganda here, it is asserted.

"The operator has given me the wrong number, said the man's voice. "The numbers all right," said the woman's voice. "The operator has given it to the wrong person."

#### MEXICO TIRED OF CARRANZA REGIME

Move for Armistice Believed a Scheme to Permit Carranza's Escape.

El Paso, Texas, May 10.—Three state capitals in Mexico fell into the hands of revolutionists today through the revolt of Carranza garrisons coincidently with an unconfirmed report given out by revolutionists here that Mexico City, capital of the republic, had been taken by General Benjamin Hill. Carranza's flight to Vera Cruz is confirmed. Mexico City has been cut off from outside communication since Thursday night.

Washington, May 10.—Carranza is beaten and his overthrow by Obregon rebels is a matter of only a short time, according to the belief today of government military advisers.

This conclusion of military experts was reflected by other officials who now admit Carranza's position is grave. Before these officials contended, Carranza would be able to control the revolt.

The Obregon revolt is not one to be gauged from a military standpoint, government intelligence officials say. They believe it is more in the nature of a "strike" against the present government by the people of Mexico, who, they say, are tired of Carranza's unfulfilled promises.

Carranza's Scheme.  
Ygnacio Bonillas, Mexican ambassador to the United States, whom Carranza was supporting for president, is a former deputy sheriff of Arizona and former secretary to Governor Stanford of that state, and, therefore, ineligible for the Mexican presidency, according to rebel agents here.

Carranza intended to have Bonillas elected, and then have the Mexican Congress "discover" that the ambassador was not eligible and designate him (Carranza) as President ad interim, it is alleged.

Advised today to the revolutionists reported the revolt of another Carranza general, Manuel Diezgu, who headed the expedition of troops that Carranza intended to send into Sonora.

#### CANADIAN NAVY NEEDED NOW AS IN TIME OF WAR

League to Take Matter up With Ottawa—Officers Elected.

Vancouver, May 8.—A resolution adopted yesterday by the Navy League of Canada at the provincial convention of the British Columbia division urged that the need of a navy at the present time was fully as great as before and during the war, and asked the Premier at Ottawa to do all in his power to form a Canadian Navy.

"That the Canadian marine shall be manned by British born subjects and not allowed to pass into the hands of aliens," a resolution was adopted asking the Federal Government to place boys of the naval brigade as apprentices upon the larger vessels.

Officers elected for the year were as follows: Honorary president, Sir Charles Hibbert Tupper; president of B. C. division, A. J. Davies, of Vancouver; vice-president, E. W. Deane; secretary-treasurer, H. F. Helmsing; members of provincial executive, Mr. A. McCreery, of Vancouver, and Mr. Maskell, of New Westminster. There are about 6000 members of the Navy League in the province.

#### CARRANZA FLEES NATIONAL CAPITAL

Washington, May 7.—Mexican revolutionary headquarters here announced today that a despatch had been received from Laredo reporting that President Carranza departed from Mexico City during the night. The announcement is not confirmed from official sources.

Carranza according to the telegram, started for Vera Cruz. He was guarded by loyal troops.

The Mexican federal garrison at Vera Cruz, where President Carranza is reported to have fled, revolted yesterday and left the city. There was said to have been no disorders.

From Juarez 1000 revolutionaries left yesterday on their march to Mexico City.

#### BIG DEVELOPMENTS IN COMMERCIAL FLYING

Toronto, May 10.—Col. W. A. Bishop, V. C., announced yesterday that the aircraft disposal syndicate of England, of which Handley Page is the head, has decided to ship to Canada a portion of the 10,000 airplanes purchased by the syndicate for disposal through the Bishop Baker Aeroplane Limited, of which Col. Bishop is president. Big developments in commercial flying in Canada are promised for this summer.

#### WILL APPLY TO PRIVY COUNCIL

Winnipeg, May 10.—W. H. Trueman, K. C., counsel for the convicted strike leaders of Winnipeg, will leave for London next week to make personal application to the judicial committee of the Privy Council for leave to appeal the decisions upon which the labor leaders were convicted.

#### ASQUITH LOSES BY FIVE TO ONE

Amendments to Home Rule Bill Defeated in House of Commons by Overwhelming Majority.

London, May 10.—An amendment to the government's Irish Home Rule bill, offered by Mr. Asquith, providing one parliament instead of two in Ireland, was defeated in the House of Commons this evening, after a short debate by a vote of 250 to 55.

Mr. Asquith's amendment provided one parliament, with county option for Ulster to stay in the union or accept the new authority for a period limited to six years, as proposed in 1914.

#### Would Meet Irish Propaganda.

London, May 10.—(Canadian Associated Press.)—Sir Edward Carson writes in the Morning Post the following:

"I have had hundreds of letters from America complaining of the folly of the British Government in making no effort to counteract anti-British propaganda carried on there on a large and systematic scale. New York is the headquarters of this propaganda, which is creating ill-will and anti-British feeling, not only in America but in India and Egypt. The British Government is apparently convinced that policy of taciturnity is the most dignified and efficient one."

#### PRODUCTION IS INCREASING FAST

Necessity for Heavy Imports Into British Columbia Will Be Greatly Lessened.

Victoria, May 8.—Although final returns are not yet available, it is anticipated by the provincial department of agriculture, according to a statement made by the Hon. E. D. Barrow, that agricultural production for the year 1919 will approximate at least \$64,000,000 in value, or an increase of more than fourteen million dollars over the preceding year.

In the year 1917 production in this province did not exceed \$38,000,000 in value, while in the year 1909 the production figures stood at \$8,000,000. Progress began to be made in 1910 when the figure leapt from \$8,000,000 to \$14,398,999, although in the following twelve months a similar increase was noted the figure for 1911 reaching a total of \$21,541,928. By 1913 production had increased to \$26,222,033, and in 1916—the second year of the war—the figures given in official records are \$32,182,915. In 1917, \$37,661,850 represented the total value of the output, while in 1918 the value had increased to \$49,681,425.

Incidental with the production values for the years 1909 to 1919 inclusive it is interesting to examine the value of imports for the same period. Roughly speaking imports have doubled themselves in value while production has increased in value approximately five fold.

In the year 1909 the value of imports did not exceed \$11,100,237. In 1910 their value increased to \$15,187,227; in 1911 to \$14,699,854; in 1912, \$15,252,022; in 1913, \$20,070,757; in 1914, \$25,199,125; in 1915, \$16,416,970; in 1916, \$17,199,642; in 1917, \$19,768,206; in 1918, \$21,905,446; and in 1919, \$22,734,150.

From an analysis of the foregoing statistics it will be seen that production in this province is gradually increasing to the point when the law of supply and demand will reduce the necessity for so great a volume of importation.

#### THE POTATO CROP

(Experimental Farms Note.)

The potato is one of our most important food crops, and yet it is one that very often does not receive the attention it should. It is the practice of many farmers to leave the planting of potatoes until practically all other crops are in.

With the exception of, perhaps, some parts of the Maritime Provinces this late planting means a much smaller yield than there would be if the planting were done before the middle of May. By the end of May or beginning of June the seed potatoes have sprouted so much that when these are broken off at planting time the new shoots will not come on with the same vigor as they did early in the season. Furthermore it is important for the potato to get a good root system before the hot weather sets in.

It is of the greatest importance to use good seed. Two lots of seed of the same variety which look very much alike may give a difference of three hundred or more bushels per acre in the crop, as has been shown in experiments at the Experimental Farm, Ottawa. In 1918, for instance, one lot of Irish Cobbler yielded at the rate of 378 bushels per acre and another 37 bushels per acre. The best Green Mountain stock yielded 330 bushels per acre and one of the poorest 16 bushels per acre.

If possible, one should know where the seed was grown the previous year that he is about to use. If it came from a crop, the plants of which grew vigorously until cut down by frost, then, if free from disease, it will, as a rule, yield a much better crop than if it is from a crop the plants of which withered in the middle of summer and the tubers lay in hot soil the rest of the season. This year when the price of potatoes is so high there will be a temptation to use small potatoes for seed. If these small potatoes come from a good crop the previous year the results are likely to be satisfactory. If the season is favorable, and if they are from a small crop the previous year when the plants dried up early the plants this year are likely to be weak and the yield not very good. Good sized sets of from one and a half to two ounces have been found the most satisfactory taking one year with another, although if the season is particularly favorable smaller sets will produce a good crop, but one cannot tell what the season will be, hence it is better to be on the safe side.

This distance of planting which has been found most economical in most places in Canada is, rows two and a half to three feet apart and sets twelve to fourteen inches apart in the rows. While quite shallow planting has given the highest average yields at Ottawa, it is necessary to plant about four inches deep for field culture to enable one to harrow before the potatoes are up without pulling up the sets.

The varieties which have been most generally satisfactory in Canada are Irish Cobbler as an early potato and Green Mountain as a main crop or later variety. Other varieties which can be distinguished from Green Mountain and are included in the Green Mountain group are Gold Coin, Uncle Sam, Wee MacGregor and Delawares. The Dooley of the Rural group has done well in the warmer parts of Ontario, and in coast climates Hurank is also popular.

W. T. MACGOWN,  
Dominion Horticulturist.

#### POLISH-UKRAINIAN ADVANCE CONTINUES

Warsaw, May 10.—Pushing north-easterly towards the Dniester, the Poles and Ukrainians on Friday crossed the River and captured Hlatskerklev, forty miles north of Kiev, and Hlatsk. The drive began in the Kiev region, continuing eastward and then north-easterly as part of the encircling movement about Kiev.

Hlatskerklev was the Polish gateway during the Tartar invasions. There stands the Polish defending castle built in 1515, which the Bolsheviks used against the Poles. The castle was taken in hand-to-hand fighting.

#### CHARTER FOR ACCOUNTANTS

Ottawa, May 10.—The granting of letters patent to the Canadian Society of Chartered Accountants is posted in the current issue of the Canada Gazette. Chartered accountants in Halifax, St. John, Montreal, Toronto, Winnipeg, Regina, Calgary and Vancouver have incorporated themselves into a society for the promotion of general knowledge of their profession under a Dominion charter without capital, with head office in Toronto.

#### WILSON DEMANDS CAMPAIGN ISSUE

Treaty of Versailles Thrown Into Presidential Fight by Formal Call on Party.

Washington, May 10.—The treaty of Versailles as it came from Paris was thrown squarely into the coming presidential campaign.

President Wilson formally has called the Democratic party to "indorse and support" the treaty and "condemn the Lodge reservations."

Senator Lodge of Massachusetts, the Republican leader in the fight to amend the document, has accepted the president's challenge and political observers here regard the issue as clearly drawn.

Mr. Wilson's views were stated in a telegram last night to C. E. Hamaker of Portland, Ore., chairman of the Multnomah county Democratic central committee.

With W. J. Bryan insisting that the Democrats accept the reservations adopted by a majority of the senate, some observers here expected a sharp fight on the treaty issue at San Francisco with Senator Hitchcock of Nebraska, probably leading the administration forces.

While Mr. Wilson is a self-made man, made by hard work, do you know what that means?

While Mr. Wilson is a self-made man, made by hard work, do you know what that means?

### SIR CONAN DOYLE ANSWERS BISHOPS

Says One of Them Is Confusing Spiritualism With Fortune Telling.

London, May 10.—Sir Arthur Conan Doyle, the staunch disciple of spiritualism, has replied to the four British bishops who recently issued a public denunciation of spiritualism in which they deplored the spreading of belief in the possibility of communication with the dead.

"Such protests delay but can not hinder progress," he says. "God is a great reformer and must prevail. It is extraordinary that in this prelates a subtle form of materialism should clothe itself in the outward trappings of religion."

"In spiritualism, with its definite proofs of independent post-mortem existence, there is such an enforcement of true religion as has not been known since the apostolic age."

"My actual experience has taught me the basic facts of supernatural religion, that spiritual evolution and improvement are the objects of our existence. If the contention of the Bishop of Hereford is correct we should expect to find a high rate of lunacy among the spiritual communities which are now numerous in England. This is notoriously not so. They are a remarkably healthy people and contribute far fewer than their quota to the asylums."

"My opinion is that even if it should require a considerable sacrifice of human reason or life to establish so vital a proposition as personal survival, it would be well worth while. The Bishop of Truro seems to confuse spiritualism with fortune-telling. I assure him that spiritualism discourages the latter."

### BIG INCREASE IN COST OF LIVING

Increase in American Cities Is Over Hundred Per Cent.

Washington, May 8.—In a table of figures made public today the labor given details of the increased cost of living for fourteen American cities since December, 1914, up to December 1919, Chicago's percentage of increase is given as 100.61 per cent.

Percentages of increase in other cities for the period were given as follows: Detroit, 107.87; Norfolk, 106.98; New York, 103.81; Jacksonville, Fla., 102.14; Buffalo, 101.65; Houston, 101.70; Savannah, 98.68; Baltimore, 98.40; Philadelphia, 96.49; Cleveland, 95.05; Mobile, 94.54; Boston, 92.30; Portland, Me., 91.59.

### WOULD INCREASE FEE ON REGISTERED MAIL

Ottawa, May 10.—Increase in the maximum registration fee from five to ten cents on letters and other articles sent by registered mail is proposed in a resolution introduced by the Minister of Customs and Inland Revenue.

The regulation also proposed an increased postage on weekly newspapers and periodicals within a distance of forty miles from the place of publication. Between January 1, 1921, and January 1, 1922, the rate is to be one cent and one-half cent thereafter. It is not proposed to eliminate the free postage facilities enjoyed by members during sessions.

### COQUITLAM MAN NEW MODERATOR

Rev. J. H. Cameron Elected to High Office by Presbyterian Synod.

Victoria, May 8.—The opening session of the 29th annual meeting of the Presbyterian Synod was well attended and intensely interesting.

Rev. J. F. Millar, of Penticton, the retiring moderator, was bold enough to break away from the traditional synod session and made a synod statement instead, which proved practical and interesting. The statement made mention of the undignified and unseemly structures of many of the church buildings.

He said the moderator should be made more of throughout the synod. His position gave him influence which should be availed of among the people. Although the Presbyterian people were a fine loyal people to the church, they should be given more general and definite information of the work of the church.

#### Weakness in Multiplicity.

The multiplicity of duties of the average minister was a great weakness to his prophetic ministry in the pulpit. The church accommodation is not sufficient for the Presbyterian population. Many, therefore, are not in the church. Ministers were greatly weakened when they were not at home in their own parishes, and the soul life. The Christian Sabbath must not be allowed to pass.

#### New Moderator Elected.

Rev. J. H. Cameron, of Coquitlam, was unanimously elected moderator for the ensuing year. Dr. Logan moved this and Dr. H. N. McLean seconded. Rev. Jos. McCoy and Rev. Jas. Hood moved the name of Rev. A. F. Murray, of Duncan, who urged that his name be withdrawn. Mr. Cameron has served many years in synods of Manitoba and British Columbia, and is highly honored by his brethren. He accepted the honor as a tribute to a missionary pastor. Mr. Cameron was years ago honored as moderator of the Manitoba synod.

### OUTLINES PLAN TO ENCOURAGE MINING

Government Will Aid Operations of 25 Parties, Veterans and Prospectors.

Victoria, May 8.—An outline of proposals formulated jointly by the provincial departments of mines and industries, for the general encouragement of prospecting for minerals in British Columbia and in particular for the extension of aid to returned soldiers wishing to engage in that line of work is made public by the Hon. Wm. Sloan, Minister of Mines.

Briefly it is intended that twenty-five parties shall be put in the field, each of which will consist of two men, one a practical prospector of experience and the other a returned soldier. The parties will be grubstaked and the total number of which provision is being made will be divided among the six mineral survey districts of the province in proportion to the population of each district.

"The Government would undertake to provide camp equipment consisting of tent, 30 ft. ground sheet, blankets, cooking utensils and tools and incidentals, which at the end of the contract would become the property of the prospectors or in lieu of such equipment the Government would contribute \$50 towards the purchase of same. The prospectors to supply their own personal equipment."

Further, the Government to make a uniform allowance, for all the province, of \$1.50 for food and other expenses, to each man for each day in the field, payable monthly, or as might be arranged. At the end of the season, men who had served the full term of their contracted undertaking, properly attested to, would be allowed to the experienced prospector the sum of \$125, and to the unexperienced man \$100. In exceptional cases the resident engineer might remit a portion of the contract.

#### Proemiers' certificates and services of district engineers is also part of the scheme.

### CLOSER RELATIONS BETWEEN CHURCHES

Presbyterian Synod Favors Working Agreement With Anglicans and Adopts Recommendations.

Victoria, May 7.—One of the most successful gatherings of the British Columbia Presbyterian Synod ever held closed here last evening. It was decided to meet in St. John's Church, Vancouver, next year. The synod will extend an invitation to the General Assembly to meet in St. Andrew's Church, Vancouver, in 1921.

One of the most important decisions of the synod was to establish closer relations with the Anglican church. It was decided to send a particularly cooperative with this church in such matters as the overlapping of mission work, industrial and social relations, Oriental immigration, law enforcement, religious teaching in the public schools and religious education generally, as well as in the distribution of Christian literature.

#### Recommendations on Union.

The synod adopted the following recommendations: 1. That the synod adopt the report to be sent to the general synod assembly for their information as containing matters of great interest to the whole church.

2. That the synod express approval of the proposals for co-operation as suggested and those he recommended to Presbyterian churches for their consideration in view of such co-operative arrangements already existing with other churches.

3. That the synod join with the Anglican synod in thanks to Almighty God for these fraternal relations and recommend all our ministers and officers to establish and maintain cordial relations with the clergy and people of the Church of England and re-appoint the committee with the addition of Dr. Carruthers and Dr. O. A. Wilson.

4. In regard to the seriousness of the reconstruction period in all the churches, they invite their ministers and people to pray the Divine blessing of comfort, wisdom and guidance on the General Assembly and the Lambeth Conference so that decisions may be reached that will show to the world the true unity of spirit and purpose of the church.

### THE TRUE UNITY OF SPIRIT AND PURPOSE OF THE CHURCH

The keenest interest was taken in the whole subject and many members of the synod took part in the debate. There was unanimity of sentiment on the question but diversity of opinion as to the effect on the question of union still before the Presbyterian, Methodist and Congregational churches. The synod made sure that such co-operation with the Anglican church would in no way interfere with the theologically sound but strongly favored co-operation with the Anglican church in mission work and other such matters.

#### Industrial Relations.

Dr. E. D. McLaren gave the report of the committee on industrial relations. Dr. McLaren indicated that the conflict of the parties was due, in large measure, to lack of understanding and appreciation of each other's position. He urged the church to keep on seeking conferences with leaders of labor, to do all possible to understand the conditions and to mediate and endeavor to bring about a better mutual understanding.

Mr. Woodward, labor representative, addressed the synod at considerable length. He declared that until the church does take up social problems, no real advance will be made. The social aspect of the Gospel, he said, needed to be emphasized. Labor was united in a struggle for existence; it is not a separate body of humanity.

#### Study of Social Problems.

In resolutions adopted by the synod, corporations and individuals who amass fortune by forcing the higher cost of living were severely condemned, and ministers were urged to study the literature of social problems and publications such as "The Labor Gazette," "Social Welfare," etc., and books found in Westminster Hall, and those suggested by Miss Mary Secretary of the Trades and Labor Council of the O. B. U.

### WORK OF CHURCH IS PROGRESSING

Highly Satisfactory Reports Are Presented at Meeting of Presbyterian Synod at Victoria.

Victoria, May 6.—An encouraging report was presented to the Presbyterian Synod yesterday afternoon by Rev. C. H. Daly, of Ladner, on the financial and spiritual growth of the church in British Columbia. He said there were now 108 ministers engaged in work in the province, an increase over the previous year of eight. There were 559 elders, an increase of 40, and 940 members, an increase of 103. The total number of members of the church is now over 16,000, an increase of 385, with 946 received on profession of faith and 1309 by certificate, both indicating large increases over last year. He said the church tree was not a dying but a growing tree.

#### Financial Satisfaction.

The financial strength of the church was indicated by the fact that there was an \$100,000 increase over last year in the ministerial support of the church with a total of \$121,000. The missionary, education and benevolent funds showed an increase of over \$13,000, reaching a total of \$61,000, while the budget alone of \$37,465 showed an increase of \$5,500.

The grand total of the church's financial offerings for 1919 reached \$410,000, a fine increase of \$108,000. The Women's Missionary Society in British Columbia raised the sum of \$10,000, an increase of \$2,500.

Two remarkable things were noted in connection with the Forward Movement financial objective: (1) That so many rich men gave so little to the financial objective, and (2) that so many people throughout the province gave so liberally of their moderate means. The synod nearly reached the \$200,000, and the whole church has nearly reached \$5,000,000.

### BLYTHER ROGERS DEAD

President of the B. C. Sugar Refinery Passes Away at Age of 27 Years.

Vancouver, May 6.—The death occurred at 4 o'clock this morning at his residence, 1531 David Street, of Mr. Blythe D. Rogers, president of the B. C. Sugar Refinery. He had been seriously ill during the past two weeks with heart trouble, but up till yesterday it was thought that he was on the way to partial recovery.

The late Mr. Rogers was born in this city May 23, 1893. He was educated at Queen's School, Vancouver, St. Albans, Brockville, Ont., and at the Royal Military College, Kingston. He was a lieutenant in the Royal Engineers, Ottawa, and it was while taking a training course a few years ago with the Engineers that he met with a severe accident, his horse falling on the ice and throwing him heavily. The shock started the trouble which ultimately undermined his health permanently.

The late Mr. Rogers was well known in the sporting world, although his activities were mostly in the yachting line. He kept up the steam yacht Aquillo, the flagship of the Royal Vancouver Yacht Club during his father's term as Commodore, while he himself owned the fast speed Turenga, which some years ago competed against a fast Seattle sloop for the Lipton trophy.

He leaves to mourn his loss, besides his wife and young child, his mother, three sisters, Mrs. Chermak, Blith, and Margaret, and three brothers, Ernest, Phillip and Forrest.

### THREE DOLLAR WHEAT COMING

Canadian Farmers Did Well in 1919 and May Do Still Better With Next Harvest.

Winnipeg, May 8.—James Stewart, chairman of the Canadian Wheat Board, announced this morning that the value of "participation certificates" will be not less than 40 cents per bushel.

This, with the \$2.15 already guaranteed will bring the price to \$2.55. United States wheat averaged \$2.14.

Ottawa, May 8.—It is freely predicted in authoritative quarters that the price of the 1920 crop will be high. Some members believing that it will be as high as three dollars a bushel, provided there are no internal troubles in any of the larger countries of the world.

St. Regis's girl has money to burn. She—Yes, I hear she's looking for a match.

### FALL FAIR DATES ARE ALL ARRANGED

District Fairs Are Grouped Around Three Larger Ones by Department Heads.

Victoria, May 8.—According to a statement made by the Hon. E. D. Barrow, Minister of Agriculture, financial reasons have precluded the possibility of holding a convention of the British Columbia Fall Fairs Association, and in consequence arrangements for the various annual events and their respective dates have had to be made by means of correspondence with the provincial department of agriculture.

Having concluded arrangements in respect of the three big fairs—the smaller events are grouped around them. In five circuits, forty-three events already have been listed with the department as per the following schedule of dates, some of which, however, are tentative:

Circuit One—Lasquet Island, September 9; Parksville, September 9; Saanichton, September 12-15; Cowichan Harbor, September 15; Alberni, September 16; Duncan, September 16-18; Victoria, September 20-25; Cobble Hill, September 28; Courtenay, September 28-29; Ladysmith, September 28-29.

Circuit Two—Burquitlam, September 11; North Vancouver, September 11; Chilliwack, September 17, 18, 19; Asasit, September 8; Matsqui, September 9-10; Vancouver, September 11-18; Surrey, September 21; Maple Ridge, September 21-22; Langley (Milner), September 22; Richmond, September 22-23; Mission, September 22-23; Coquitlam, September 22-23; Alderhot, September 24; New Westminster, September 27, to October 2; Abbotsford, October 5; Ladner, October 8-9.

Circuit Three—Kelowna, September 8-9; Kamloops, September 8-10; Armstrong, September 21-23; Salmon Arm, September 22-23; Summerland, October 13-14.

Circuit Four—Cranbrook, September 1-2; Golden, September 10; Natal, September 6; Athlmer, September 15-16; Nakusp, September 22-23; Needles, September 23-24; New Denver, September 28-29; Selkirk, September 28-30; Slokan City, October 8.

Circuit Five—Prince George between September 15 and 18; Bulkley Valley, September 21; Prince Rupert, September 22-24.

### SYSTEMS EMPLOYED TO DETECT SPIES

(From Toronto Mail and Empire.)

England's method of dealing with the German spy menace at the outbreak of the war being described by the Morning Post. Briefly speaking, the plan was to watch the spy and not intern him. So long as the spies thought they were not suspected they were kept at work and the Government was apprised of all their activities. Had they been immediately arrested their places would have been taken by other and unknown spies. The United States Government had more potential German spies within its borders than the United States entered the war than all the other combatants combined. The task of dealing with them was tremendous, but it was very successfully handled, partly by Government agents and partly by volunteer detectives, who patrolled the streets to the task. Much credit, too, must be given to the British and French detectives who went to the United States to guard the plants that were making munitions in the days of American neutrality. By the time the United States stepped into the conflict the Government organization was remarkably effective.

#### Locating the Leak.

Some illustrations of the methods employed are given in the New York Tribune by Fred C. Kelly. He mentions a case in which it was discovered that secrets concerning airplane manufacture were leaking out. The chief of the men was the traitor; the question was to locate him. It was arranged that each of these men should be entrusted with some supposed secret about the planes. No two of the stories were alike. One of the stories leaked out. The other eleven did not. It was plain evidence who was the spy. Somewhat similar was the scheme whereby the country was rid of the numerous German agents masquerading in the uniform of American naval officers. To stop and interrogate every man in uniform was manifestly impracticable. So secret instructions were given to every naval officer that on a certain day he would make some slight inconspicuous change in his dress. Every officer did so. The uniformed Germans having no information of the change appeared as usual. Mr. Kelly says that every one of them was arrested.

#### Breaking Fritz's Morale.

Another method was used upon a prominent Cleveland hyphenate named Fritz Baumgarten. It was learned that he had placed an order in a small New York factory for dies to be used in the manufacture of rifles. Investigation showed that the rifles were of the Mauser type. Chief De Woody, of the Cleveland bureau, concluded that this was a case in which Baumgarten would have to give evidence against himself. He selected half a dozen or more of Baumgarten's friends and associates whose patriotism was beyond doubt and acting on instructions from his friends, every time they met Baumgarten, would say: "What's the matter, Fritz, been losing sleep? You look as though you had all the worries of the world on your mind. At this time Fritz was not particularly concerned with worrying, but presently, the idea having been so strongly suggested he did worry, and of course what he worried over was the fear that the United States Government would discover the incident of the German rifle order. The treatment was kept up for couple of weeks, and at the end of that time Fritz called upon Chief De Woody and confessed that the rifles were intended for shipment to German sympathizers in Mexico. He was interned.

#### The Missing Editor.

A case that baffled De Woody and his assistants for a long time was the disappearance of William Warm, editor of a Hungarian newspaper in Cleveland. The first clue of his whereabouts came when Dunham's mail was seized at a British post and a reference found to "our good friend, the Hungarian editor." The editor was kept up for couple of weeks, and at the end of that time Fritz called upon Chief De Woody and confessed that the rifles were intended for shipment to German sympathizers in Mexico. He was interned.

#### But as he talked with one of them, De Woody was struck by the fact that Warm's little boy was mentioned.

He walked out of the house and stopping at the first group of youngsters he saw playing in the street, he said: "Do any of you boys know Billy Warm?" One answered: "Jimmy saw him the other day." Jimmy at first refused to give any information, fearing that De Woody was a truant officer, but presently his scruples being overcome, he was able to lead the sleuth to the Warm household. An arrest immediately ensued. Still another ruse was employed to drive a man named Robinson. He was known to be in hiding within a radius of fifteen miles of a little town in the Catskills, but the closest search had failed to locate him and he was wanted in a hurry. The detectives suspected that two chauffeurs in a certain garage knew Robinson and communicated with him, but the drivers were staunch. One day an officer entered the garage and calling up New York, said: "Well, we've got Robinson; or anyhow we know where he is in hiding a few miles out of here. We're going to drive out and get him in a little while." He calculated that the word would be passed to Robinson who would thereupon break cover; and this is what happened and the next day he was arrested on a train.

#### GERMANS BREAK TREATY TERMS

Krupps and Other Firms Are Busy Making New Types of Field Artillery.

Hanover, Germany, May 10.—Krupp's great armament firm at Essen, were recently discovered still manufacturing field guns, in direct contravention of the terms of the Peace Treaty. They had reserved a special plant for this purpose and had endeavored to conceal these shops from the eyes of the Allied inspectors.

It is believed in some quarters, particularly French, that Krupp's were manufacturing a new type of field gun but so far no accurate details can be obtained.

Other firms too, in Western Germany, have been caught manufacturing machine guns and automatic rifles or concealing war material, and the task of the Allied officers in searching the factories becomes more and more difficult with each day in face of the deception of the Germans.

The Germans try every conceivable artifice from the giving of champagne luncheons to the actual point of blank lying, to delude the Allies, but their ingenuity, while exciting the smiling admiration of the Allied officers, brings little profit to them.

Under the terms of the treaty, all war machinery must be dismantled and the Germans seek to prove by the production of locomotives and even humble sauce that the same machinery can be used for the purposes of peace.

The Allies have adopted a policy of creating as little unemployment as possible, but the absence of any German good-will makes difficult the carrying out of this policy.

### Perhaps You Need A Bicycle—But Don't Know It

If you are a workingman you need a bicycle. It will save you long waits and tiresome rides in jammed street cars.

If you are a carpenter you can carry your kit from job to job and save valuable time. A collector can collect a very much larger amount of money.

With a bicycle you can make double, often triple, the number of business calls in a day. You can call on out-of-the-way prospects off the car lines.

Hundreds of teachers and thousands of pupils ride bicycles to school.

The bicycle solves the emergency delivery problem of the grocer, butcher, druggist and other merchants. It is the cheapest form of quick transportation.

Bicycling saves time. Saves car fare. Saves expensive shoe leather. Saves money.

Do you need a bicycle?

If you do, you'll want one that you can depend on.

C. C. M. Bicycles are famous for easy-running and long service. They are built to stay out of the repair shop.

And the new Hercules Positive Drive Brake—the Coaster Brake without a side arm—is included without extra charge.

The branch harness business of H. C. Cooper at Armstrong has been purchased by Chas. Addison of that town.

J. B. Greaves of Nicola left on Monday with a band of 400 cattle which he had purchased from the ranchers of that district.

Smith & McLeod's boom of logs at Enderby now contains over two million feet of splendid timber, brought down from their Mabel Lake limits.

A. K. Stuart of Greenwood, one of the original proprietors of the Vernon News, has received an appointment as western mining representative at the Paris exhibition.

S. T. Elliott left on Tuesday for Telegraph Creek where he will spend the summer.

Reading Notices, other than locals, 10  
 cents per line each insertion. Black  
 type, 20 cents per line.

Legal Advertisements, 12 cents per line  
 first issue; 8 cents per line each sub-  
 sequent issue. (Subject to change by  
 Government Order.)

Land Notices, including Licenses, Certifi-  
 cates of Improvements, etc., \$8.00 for  
 60 days; \$5.00 for 30 days.

Dissolution of Partnership Notices,  
 two issues, \$3.50.

Water Notices, 30 days, 150 words and  
 under, \$10.00; each additional 50  
 words \$1.00.

Advertisements running "till forbid"  
 must be cancelled in writing.

The size of type runs approximately  
 6 words to a line, 12 lines to the inch.  
 Rates for Contract Advertisements  
 furnished on application.

To insure changes of advertisements  
 in current week's issue, copy or  
 orders must reach us not later than  
 3 p.m. on Tuesday.

## HOUSES FOR SOLDIERS.

We are afraid that Vernon will  
 not occupy a very enviable position  
 in the public view, as compared to  
 other cities of the province, in the  
 matter of providing loans for re-  
 turned men under the Soldiers'  
 Housing Act. While it is far from  
 our purpose to attach undue blame,  
 to our City Council in this respect,  
 we feel impelled to state that the  
 action of the civic authorities is not  
 such as commends itself to our judg-  
 ment as being in the best interests  
 of all concerned. We are free to  
 admit that from the standpoint of  
 cold business logic their action may  
 be justified; but there are times  
 when a point may be strained to  
 meet a particular case, and there  
 are circumstances which occasionally  
 make a business rule more honored  
 in its breach than its observance.

The objects held in view by the  
 Dominion Parliament when it passed  
 an appropriation of \$25,000,000  
 under this Act were doubtless of a  
 two-fold nature. The prime motive,  
 of course, was to assist in the re-  
 establishment of our returned sol-  
 diers to whom the country owes a  
 debt that can never be entirely  
 liquidated. A second consideration  
 of no small importance was that by  
 this plan the problem of the scarcity  
 of houses, which confronts every  
 town in the land, might in some  
 measure be solved.

It will be agreed that new houses  
 are badly needed in Vernon. It is  
 also apparent that the only way by  
 which our high tax levy is likely to  
 be reduced is by increasing the  
 spread of the payment of rates and  
 taxes over an augmented number of  
 dwellings. With these conditions in  
 view it seems reasonable to expect  
 that instead of hampering loans to  
 soldiers with stringent regulations,  
 the utmost latitude should be ex-  
 tended to any proposal that will re-  
 sult in new houses being erected. To  
 enforce a plan which practically will  
 shut out from the privileges of the  
 Soldiers' Housing Act a number of  
 applicants who otherwise might be  
 provided with residences does not  
 appeal to us as "good business,"  
 when the peculiar circumstances now  
 obtaining here and in other cities  
 throughout the province are taken  
 into consideration. The regulation  
 which insists that the loan should be  
 limited to 75 per cent. of the value  
 of the land and building, and which  
 further restricts the valuation of  
 the land to not more than one-sixth  
 of the gross cost of the building, is  
 in our opinion altogether too string-  
 ent in its nature, and is calculated  
 to defeat the objects of the Act.

It may easily be conceived that  
 such a regulation may place a re-  
 turned man who has based his appli-  
 cation upon a knowledge of what has  
 been done, say, in Kamloops or Ke-  
 lowna, in a pretty tight box. Sup-  
 pose, for instance, that he purchases  
 a lot for \$1000 expecting to get a  
 loan of \$750 to build a house. He  
 finds that, no matter what the as-  
 sessed value of his lot may be, it is  
 valued for the purposes of the loan  
 at only about \$583, or one-sixth of  
 \$3500. This means that he will have  
 to be prepared to finance himself to  
 the extent of several hundred dollars  
 more than he expected when he pur-  
 chased the lot and put in his appli-  
 cation. It is not surprising that a  
 man who finds himself in such a  
 position should be inclined to feel  
 that, to say the least, the Council has  
 not approached this question in the  
 sympathetic and generous spirit  
 which lies at the root of the Act  
 which makes such loans available.

Nor do we believe that the Coun-  
 cil's fear that house values may take

a tumble before the payments are  
 completed is very well grounded. We  
 are inclined to think that rental  
 values of such residences will con-  
 tinue to ensure safety to such loans  
 during the period of their existence,  
 and that a common mortgage on the  
 property would provide the city with  
 ample security against loss. While  
 we appreciate the fact that the  
 Council feels it a duty to carefully  
 safeguard the interests of the city,  
 we feel that in this case they have  
 exceeded on the side of caution.  
 Even in the event of default on be-  
 half of some of those obtaining  
 loans, we doubt greatly if any Gov-  
 ernment would be unduly severe in  
 its exactions upon a city that gave  
 adherence to the spirit of the Act in  
 disposing of the allotted funds com-  
 ing under its jurisdiction. We have  
 given this matter a good deal of  
 careful thought during the somewhat  
 lengthy period in which the Council's  
 committee has had the subject under  
 consideration, and we venture to sug-  
 gest that less drastic conditions than  
 those decided upon would be more in  
 keeping with the necessities of the  
 case.

## ANOTHER BLUFF.

The resolution passed by the  
 United States Senate asking for the  
 appointment of a commission to  
 negotiate with Canada to have the  
 export embargo on Canadian pulp-  
 wood removed indicates the cause  
 for the shortage of printing paper on  
 the other side of the boundary line.  
 It is a different cause from that  
 which is responsible for the high  
 price of paper in Canada. In Canada,  
 the supplies of standing pulpwood  
 are still considerable, and the price  
 of paper is high to Canadian con-  
 sumers because of the competition  
 of the United States paper buyers  
 who are buying Canadian paper in  
 unprecedented quantities because  
 there is only left in the United States  
 a very meagre supply of pulp timber  
 out of which to supply the home  
 market. In plain words the U. S.  
 pulpwood is nearly all cut. The  
 paper mills in the States are sus-  
 pending operations from lack of  
 material. The remaining supplies of  
 pulpwood on the North American  
 continent are in Canada and the  
 hope behind the Senate resolution is  
 that Canada will consent to the ex-  
 portation of Canadian logs to U. S.  
 mills to take the place of U. S.  
 timber which no longer exists.

Embargoes on the exportation of  
 Canadian logs were imposed by some  
 of the eastern provinces a good many  
 years ago in the interests of Cana-  
 dian business and it is to be pre-  
 sumed, in the interests of the forests  
 themselves. The enactments made  
 allowed leases of Canadian timber  
 lands to be acquired by United States  
 citizens; they only ensured that  
 Canadian timber in a rough, un-  
 manufactured condition would not be  
 shipped out of the Dominion. No  
 change has been made in the terms  
 of the leases, and United States com-  
 panies who hold Canadian pulpwood  
 limits are as much at liberty to cut  
 the trees, manufacture the paper,  
 and ship it to the States as are the  
 Canadian companies engaged in the  
 production of the same article.

Behind the resolution of the Sen-  
 ate, however, is, as the Manitoba  
 Free Press points out, the desire to  
 bring aid to the U. S. paper manu-  
 facturers. If the embargo were  
 lifted they would not only get more  
 paper and cheaper paper, they would  
 also infuse new life into the U. S.  
 paper making industry which would  
 be put on its feet again by the un-  
 restricted importation of Canadian  
 logs. From any side they look at it  
 it seems a very desirable thing to our  
 southern friends that Canada should  
 adopt a different attitude towards  
 the pulpwood situation and lift the  
 bars of the embargo in their favor.

They evidently feel, however, that  
 it is very unlikely that Canada will  
 do anything of the kind, and for  
 reasons, too, which must be quite  
 well understood in the States and  
 approved there by all intelligent per-  
 sons. To enforce the desired em-  
 bodied in the Senate resolution a  
 number of those behind it are trying  
 to give it a little more weight by  
 urging that if Canada will not lift  
 the embargo on pulpwood, "retali-  
 atory action" should be taken against  
 Canada and exports of cotton and  
 coal into the Dominion from the  
 States should be stopped. This threat  
 shows the desperate situation in the  
 U. S. pulpwood business and is about  
 the best argument for the retention  
 of the embargo that could have ap-  
 peared.

The U. S. pulp resources are ex-  
 hausted, and the Canadian resources  
 are very far indeed from being in-  
 exhaustible. Were Canada to permit  
 the unhampered exportation of logs  
 from Canadian forests to the States,  
 Canada's pulp resources would fade  
 completely out of sight in a couple  
 of decades. The United States  
 Senators who are loudest in demand-  
 ing the withdrawal of the embargo  
 know this, but it is nothing to them.  
 Their supplies are all gone and they  
 are quite prepared, anxious indeed,  
 to help cut down Canada's stocks of  
 spruce while there is a stick left  
 standing. Forest conservation in  
 Canada is a trifling thing to them  
 compared with keeping the U. S.  
 paper mills running for a few more  
 years, and earning comfortable pro-  
 fits for their owners while they  
 do so.

It is needless, says the Free Press,  
 to draw attention to the blatant ef-  
 frontery of Senator Underwood

the interests he represents. Cana-  
 dians realise rather acutely that they  
 are already suffering from the U. S.  
 demands on the available supplies of  
 paper manufactured in the Domi-  
 nion. The price of paper is being  
 set by the U. S. market and it is a  
 price which the Canadians regard,  
 and regard rightly, as a hardship.  
 Not content with this result to Can-  
 ada of ruinous methods by which  
 the U. S. forests have been handled  
 and denuded, Senator Underwood  
 would compel this country to let him  
 carry out the remnant of spruce that  
 still remains to this continent. He  
 would ride roughshod over the mea-  
 sures taken legitimately to preserve  
 Canadian resources and Canadian in-  
 dustry; and measures, moreover,  
 which in no way discriminate against  
 United States interests in Canada.

There is no embargo on a United  
 States firm cutting spruce and manu-  
 facturing and exporting paper from  
 Canada, but he would shut off the  
 export of raw cotton to Canada with-  
 out any qualifications whatever.

The Canadian authorities may be  
 safely left to handle the embargo  
 resolution as it should be handled,  
 but the revelation of a certain type  
 of "Americanism" which it has made  
 must come as a shock to the more  
 responsible sections of Senator Un-  
 derwood's fellow citizens. In Canada  
 the threat of "retaliatory action"  
 will carry no weight in the question,  
 at least not in the way those who  
 suggest it may imagine.

## LAWYERS WELL REPRESENTED.

The Cowichan Leader, an inde-  
 pendent weekly published at Duncan,  
 Vancouver Island, has made an in-  
 teresting summary of the vocations  
 of the members of all of the present  
 Provincial Legislatures in Canada.  
 It was apparently desirous of ascer-  
 taining to what extent the farmers  
 were already dominating the making  
 of laws in the various provinces. It  
 was inclined to the belief that the  
 agriculturist was now more than  
 holding his own.

But the investigation and enumer-  
 ation have resulted in amending the  
 view of our contemporary. It finds  
 that lawyers continue to hold the  
 largest share of the Dominion's  
 legislative membership. In the  
 Legislatures of the nine provinces  
 and in the Dominion Parliament  
 there are, according to The Leader's  
 calculation, in all, 880 members. Of  
 these 220 are lawyers.

The legal profession, it points out,  
 amounts to about one-fifth of the  
 one percent. of Canada's population.  
 Yet lawyers have twenty-five per  
 cent. of the total representation in  
 the Parliaments of the country.

The farmers—notwithstanding  
 particularly large representation in  
 the Legislatures of Ontario and the  
 Prairie Provinces—have just under  
 eighteen per cent. of the representa-  
 tion in the Houses, though they con-  
 stitute fifty-six per cent. of the popu-  
 lation.

The remaining fifty-seven per cent.  
 of representatives is made up of  
 other callings, in which business and  
 professional men share.

## BACK TO THE LAND.

Are economic conditions in the  
 cities and towns going to force a real  
 "back-to-the-land" movement? Un-  
 less the world has better crops this  
 year than there seems reason to ex-  
 pect, food prices will remain high for  
 another twelvemonth. The grain  
 outlook is discouraging to those who  
 wait for easier food conditions, and  
 farm production is lagging. Values  
 are greater, but the quantity is less.  
 Europe is likely to be dependent for  
 several years on this continent for a  
 large part of its food requirements.

If business in the cities and towns  
 slackens, the combined effect of high  
 food and housing costs will compel  
 an outward movement to the farms.  
 Trading in luxuries cannot, says  
 the Toronto Mail and Empire, con-  
 tinue on the scale of the past year  
 without bringing trouble on the cities  
 and towns. The country has to have  
 more production of necessities. We  
 want more foodstuffs, more raw ma-  
 terials, more coal, metals, etc. If  
 Canadian farmers had the English cot-  
 tage system, in which a farm  
 worker's family could be comfortably  
 housed, many a city father would be  
 better off in the country. A con-  
 dition which compels rural families  
 to go to the cities and towns is usu-  
 ally lack of proper accommodation on  
 the farms. Most farmers want  
 casual labor, which has little respon-  
 sibility.

The growth of the urban centres  
 at the expense of rural population is  
 pictured in vivid terms by rural  
 economists. The outlook is for a  
 check to this transfer of productive  
 power, but the farmers themselves  
 must be prepared to help. Those  
 who need labor, season after season,  
 ought to have separate cottages in  
 which a married man with a family  
 could live, and allow them sufficient  
 ground whereon to grow their own  
 vegetables, keep chickens or a cow.  
 High costs in the city will not dis-  
 appear even with a reaction, and  
 these cottages might look good to a  
 worried father who cannot see how  
 to meet city food and housing costs.

## OUR TRADE FIGURES.

In February, when the exchange  
 crisis cut down European purchases,  
 exports of Canadian products were  
 only a few millions more in value  
 than our imports. In March there  
 was a large adverse balance—for the  
 first time in several years. The

merchandise entered for consump-  
 tion was valued at \$142,497,000, and  
 our exports were valued at \$93,132,-  
 000. The adverse balance was about  
 \$50,000,000.

When, in the pre-war days, Cana-  
 ada had a consistently adverse bal-  
 ance of trade, capital was imported  
 from Britain, mainly for use in our  
 industrial development. If Canada  
 goes back to the old habit of import-  
 ing more than she exports, she will  
 speedily find a new set of external  
 financial conditions. Britain cannot  
 be a lending country for several  
 years. The maintenance of exports  
 at least equal in value to imports is  
 a prime requisite of the continuance  
 of prosperity based on Canadian de-  
 velopment of this country. In the  
 year ending with March, our imports  
 were more than a billion dollars in  
 value, or \$100 for every man, woman  
 and child. Considering the great rise  
 in commodity values, this represents  
 importations equal in quantity to  
 those before the war. Automobile  
 imports were valued at \$50,000,000.  
 Nearly \$400,000,000 of imports were  
 in the duty free class, this represent-  
 ing raw materials and necessities.

If Canadian consumers keep on  
 with the orgy of extravagant spend-  
 ing, they will find the country com-  
 ing into an era of inability to buy  
 abroad except at excessive prices,  
 and domestic industry will also lan-  
 guish because of curtailed buying  
 power. The Minister of Finance has,  
 in the circumstances, a mandate to  
 take fresh measures to check im-  
 portation of luxuries. Canadians  
 have to realize that more attention  
 has to be paid to production of es-  
 sentials, even at the expense of lux-  
 uries, or else the whole body of  
 workers will suffer from a period of  
 relative depression.—Mail and Em-  
 pire.

## "MOTHER"

(By D. E. Hatt.)

The brightness of a joyous summer day  
 When sunlight claims a universal sway,  
 And nature calls her children out to play.

The beauty and the freshness of the  
 rose  
 That in the dew of early morning  
 blows  
 And with the blush of deep affection  
 glows.

The music of the pleasant summer  
 breeze,  
 The song of the birds and murmuring  
 of bees,  
 Brooks flowing underneath o'erhanging  
 trees.

The breath of blossoms at the close of  
 day,  
 Fragrance of flowers carpeting the  
 way,  
 The scent that floats from fields of  
 new-mown hay.

Sweetness of honey from the summer  
 comb,  
 When bees are boldest and the farthest  
 roam  
 To find and bring their choicest treas-  
 ures home.

The warmth of sunshine tempered by  
 the shade  
 The interlacing boughs above have  
 made  
 Where we recline at noontide unafraid.

The inspiration of a lofty thought,  
 A phase of truth we long had vainly  
 sought,  
 To us by some revered life-teacher  
 brought.

The glow of sweet emotion in the  
 breast,  
 When Love arrives to be an honored  
 Guest,  
 To share and glorify all that is best.

An echo of the Parenthood Divine,  
 That truth in which such wondrous  
 beauties shine,  
 Because such earthly parentage is  
 mine.

All these, and whatsoever else there be  
 Needed to make a perfect harmony,  
 It takes to tell what "Mother" means  
 to me.

## Coming Events

The regular monthly meeting of the  
 Vimy Ridge Chapter, I. O. O. F., will  
 be held in the Court House on Tuesday,  
 May 18, at 8 p.m., instead of May 11.  
 12-1

## "BLUEBEARD" GETS LIFE SENTENCE

Los Angeles, May 10.—"Bluebeard"  
 J. P. Watson was today sentenced to  
 life imprisonment in San Quentin  
 prison by Superior Judge Willis for the  
 murder of Nina Lee Deloney, one of  
 the seven women he confessed to hav-  
 ing killed.

The crime record of Watson as shown  
 by the prisoner's own confessions is  
 probably the most horrible ever re-  
 vealed. Besides the seven known  
 wives he admitted murdering, several  
 others of the twenty-six women he  
 married are missing and are believed  
 to have been slain.

## "JIM" CORNWALL A CANDIDATE.

Edmonton, May 11.—Lieut.-Col. J. K.  
 Cornwall is running as an Independent  
 against George Mills, Liberal, in the  
 by-election in Athabasca caused by the  
 death of Hon. A. G. MacKay, and a  
 warm contest is assured.

## Okanagan Saddlery

Change of Ownership

THE OKANAGAN SADDLERY business  
 heretofore managed by Percy Cooper, has  
 changed hands, and will in future be con-  
 ducted by W. J. Oliver, late of Bow Island, Alberta.  
 It is intended to extend the scope of this busi-  
 ness, and to handle a larger and more varied line of  
 goods, and the new proprietor hopes for the con-  
 tinued support of the citizens of Vernon and the  
 Okanagan District.

Prompt service and good value assured at all  
 times.

Special Motor Cars  
to Arrive Shortly  
**Frank S. Reynolds**  
Cockshutt Agent - Vernon, B.C.

**EMPRESS ATTRACTIONS**

LAST SHOWING TODAY, THURSDAY, MAY 13  
George Loane Tucker's master picture

**"The Miracle Man"**

It will stir you to the depths of human emotions! Excites and satisfies your curiosity!

A greater picture the mind of mortal mind could not conceive. Ask those who thronged the theatre at last night's performance. (Also comedy.)

Matinee, 3.30, 20c and 35c. Evening (one show), 8.15, 25c and 55c.

FRIDAY AND SATURDAY, MAY 14-15

**NORMA TALMADGE**

**"THE WOMAN GIVES"**

By OWEN JOHNSON

An intensely absorbing story of an artist's model toying. "Woman is either the salvation or destruction of man." This is a picture thinking men and women crave to see. Also

"SERIAL FOR BREAKFAST"

(Chester Outing scene)

—and—

"WHY HUSBANDS FLIRT"

(Christie Comedy.)

Matinee, 3.30, 10c and 20c. Evening, 7.30 and 9, 20c and 35c.

MONDAY, MAY 17

**EMMY WEHLEN**

**'Fools and Their Money'**

Breaking into the ranks of high society by a family of new found wealth, is a playlet that is full of those ridiculously embarrassing situations which are responsible for many moments of merriment. Also

"A MILLION DOLLARS REWARD"

(The Serial different.)

Matinee, 3.30, 10c and 20c. Evening, 7.30 and 9, 20c and 35c.

TUESDAY AND WEDNESDAY, MAY 18-19

**The Great NAZIMOVA**

**"THE BRAT"**

(Comedy Drama)

Never has Nazimova had a role that calls for so amazing a display of her powers of mimicry, facial expression and pantomime. "The Brat" is a creature of moods as variable as April zephyrs—as fleeting as sunbeams dancing on a bubble.

Matinee, 3.30, 20c and 35c. Evening, one show only, at 8.15, 25c and 55c.

Coming Thurs. & Fri. "The River's End"  
May 20-21

**TOWN AND DISTRICT**

E. M. Carruthers of Kelowna, was in town on Monday.

Miss Lorna Somerville returned this week from a visit to her sister at Seattle.

Inspector Clarke of the post office department, Vancouver, was in town on Tuesday.

Judge Swanson motored over from Kamloops on Monday to hold County Court at Kelowna and this city.

A. J. Woodward of Mabel Lake, familiarly known among old timers as "Heaver Jack," is a visitor to the city this week.

F. Williamson of Penticton, Inspector of Weights and Measures for this district, is paying one of his periodical visits to the city this week.

Rev. Thomas Keyworth and Messrs. T. A. Howe and Geo. Woods, left this week for the coast to attend the annual meeting of the Methodist conference.

R. B. Bell, architect, returned on Saturday from Penticton where he was arranging for some additions which the Bank of Montreal is making to its building in that town.

Mr. and Mrs. Geo. Kelsay, who have been residents of Vernon for the past thirteen years, left on Tuesday for Victoria and expect to make some where on Vancouver Island their future home.

Much to the regret of the congregation of All Saints church, and to many of our citizens generally, the Rev. Mr. Laycock has tendered his resignation as rector, and announced that he will leave for England next August.

Major Thos. LeDuc of Armstrong was in town on Friday.

Mrs. T. A. Smith was a passenger to Vancouver by Thursday's train.

E. R. Smith left on Thursday to spend a week or so at Vancouver.

D. C. Tuck went down to Kelowna on Tuesday to attend a session of County Court in that city.

The women of Vernon are planning a reception for Mrs. Emmeline Pankhurst who will be here next week with the Chautauqu.

A. E. Parlow, District Forestry Superintendent, left yesterday for Kamloops and may possibly extend his trip to Victoria, in which case Mrs. Parlow and children will accompany him on his return.

W. LeGrand of Vancouver, a manufacturing jeweller, who has been for some time at Kelowna, has arrived in town with his family and has taken a position in the manufacturing department of C. J. Whiten's jewellery store.

The death occurred on Monday at Whiteman's Creek of Louis Bercler, a half breed resident of the Indian reserve, who is one of the old timers of the district. He was over seventy years of age and had been in failing health for the past year or so.

Mr. and Mrs. Wilkinson and Miss Kay are visiting Mr. and Mrs. Thos. R. French, Mrs. Wilkinson and Miss Kay being sisters of Mrs. French. Mr. Wilkinson, who has spent the winter in California, was here for a few weeks last fall. He has been for many years the manager of a London bank, and may possibly decide to make a new home in this district.

Good catches of trout are reported these days from both Okanagan and Kalamalka lakes. Keith Buchanan pulled in a fine specimen of the rainbow trout one day last week from Kalamalka Lake, which weighed 12 lbs. 5 oz. As he captured it with an eight-ounce rod and fine tackle it took some playing to land it, and he had an hour and a half of an exciting fight before it reached the landing net.

Ald. Ellison, who acted as referee at the first league game of football played at Lumby last Saturday between the Kelowna and Lumby clubs, says that the score (6 to 2 in favor of Kelowna) did not by any means indicate that the game was a one-sided contest. He speaks in enthusiastic terms of the fine material in the Lumby club and predicts that it will make a good record during the season.

"Mothers' Day" will be observed at 11 a.m. on Sunday in St. Andrew's Presbyterian church, when a special programme will be presented by children. At 7.30 p.m. the unveiling of the Honor Roll will take place and several speakers are expected to take part. It is hoped that many of our returned citizens will make a point of being present to join with others in paying tribute to the memory of the gallant dead.

Major and Mrs. Nash left on Tuesday afternoon for Victoria, and a number of friends assembled at the station to see them off. For several years Major Nash has been in charge of the Allen Internment Camp here and since the prisoners left he has been engaged in cleaning up the grounds and disposing of the buildings. These have now all been sold, and the property has been turned back to the Provincial government.

W. H. D. Ladner returned last Thursday from Vancouver, where he made an application to the Appellate Court on behalf of J. Kidston to have the case of Kidston vs. Stirling & Piteau carried to the Privy Council for a definition of the market price of apples and an accounting under their contract. The appeal was denied, and the next hearing of the case will probably take place before the Dominion Supreme Court at Ottawa.

E. J. Sunderland of Coldstream, who for several years has been superintendent of the water system of the Coldstream Municipality, has resigned his position, and has been appointed secretary and accountant of the White Valley Irrigation and Power Company. The company will open new offices in a few days in the building formerly occupied by J. W. Watkin's garage. E. F. Lloyd has been secretary of the company since it was started, but has been compelled to relinquish the position on account of pressure of private business.

The Dominion Chautauqu will open a three days' engagement here next Monday. In our last week's issue we published an extended notice of the programme, and it is now only necessary to remind the public that such celebrated speakers as Mrs. Emmeline Pankhurst, Prof. W. F. Osborne and Prof. J. A. Armand are included on the list, along with such noted Canadian artists as the Dr. W. G. Concert Trio, the De Mille Quartet and the Serbian Tambura Orchestra. It will be of advantage to those purchasing season tickets to procure them early, as after noon of the opening day the price will be advanced.

In celebration of the 101st Anniversary of Oddfellowship on this continent, the local lodge and the Kelowna lodge, accompanied by a number of visiting brethren from Enderby, Armstrong and Kelowna, paraded last Sunday morning to service at St. Andrew's Presbyterian church. An impressive and appropriate sermon was preached by the Rev. Lennox Fraser, and special music by the choir was greatly appreciated.

Eyon returning to the lodge room luncheon was served and a number of brief speeches were given by local and visiting Oddfellows. A particularly well worded address of welcome was given by J. P. Stainton, National Grand of the Vernon Lodge. In the parade were 78 Oddfellows and 46 Rebekahs, which made the largest turnout of the order that has been seen here for many years.

It is hardly necessary to mention that the tremendous success of the "Miracle Man" that wonderful picture which excited such admiration last night at the theatre will be repeated tonight. It is safe to predict that it will again attract a bumper house. On Friday and Saturday that charming screen star, Norma Talmadge, along with a particularly strong cast, will be seen in a remarkably fine First National production, "The Woman Gives."

This is a picture that has attracted much favorable comment from the reviews, and can be very confidently recommended. On Monday, along with another thrilling episode of the serial, "The Money," in which Emmy Wehlen has a part that suits her to perfection. On Tuesday and Wednesday everybody will want to see Nazimova in "The Brat." This is an adaptation for the screen of Maud Fulton's big stage success, and Nazimova has full scope in this vehicle for some wonderfully artistic work. This is a picture that is sure to make a very decided hit. On Thursday and Friday of next week "The River's End" will be shown and will be found to be an attraction of altogether extraordinary interest.

The democratic thing in business is to put it up to public opinion to let the people judge. We are conducting our business that way. Our customers' judgment rules the house. Our constantly increasing patronage indicates that this is a good policy. Men come back time and again for new clothes, not because they like our way of doing business; but because we do business their way.

**F.W. BROWNE & CO.**  
"THE STORE FOR MEN"

IF THE CLOTHES DON'T  
MAKE GOOD—WE WILL.

**Comfort is the Big Thing in Suits for Men**

"Comfort"—It is a small word, but it means a great deal; especially in Clothes. When we point to the comfort of these suits, we do not simply mean correct summer-weight and good-fit. Those qualities are all right as far as they go, but they don't go far enough. There is just as much comfort in knowing that your Clothes are correctly styled and of worthy dependable quality, as there is in coolness and fit. We call it the comfort of confidence. No Clothes can be complete without it.

**Comfortable Price**

Another Feature of These Summer Suits

You will find the highest possible amount of value in these Suits. The tailoring is excellent; the styles new—very new. Anyone of these Suits meets your idea of comfort; everything that goes with it; even the price you pay.

PRICED AT  
**\$30, \$35, \$40, \$45, \$50**

Geo. Heggie returned this week from a business visit to Calgary.

Lindley Crease, K.C., of Victoria is a visitor to the city this week.

Auctioneer Simms announces another of his popular sales for Saturday afternoon at the old Hudson's Bay Store.

Customs Collector Ross returned Monday from Vancouver where he had been consulting a specialist on nose and eye trouble.

Charles Elmgie an old-timer of the Cherry Creek district, died at the Vernon Jubilee hospital this week. He lived alone in the mountains for many years and as far as is known has no relatives in this district.

A typographical error in the announcement of the winners of the Hudson's Bay Company's competition for school children in our issue of last week is responsible for the mistake. The name of May Wilson Pout was winner of the eleventh prize in the senior grade. The line should have contained Miss Pout's name instead of that of Katie Jones.

The Vernon Lawn Tennis Club will open its season on Saturday, May 22nd. All those interested in tennis wishing to join the club should make application to the hon. secretary, H. F. Beattie, as soon as possible. There will be six grass courts available. Members provide their own balls. Subscription fees for the year are: Players \$10.00, non-players \$5.00. Tennis will be provided on Wednesdays and Saturdays.

During their stay in the city the University Players met a number of old friends and made a host of new ones. On Tuesday afternoon they were given a tea at the Country Club by the members, and after the performance of "Green Stockings" they attended a dance in the court house given in their honor by the Vimy Ridge Chapter of the Daughters of the Empire, which proved to be a most enjoyable function. Miss Dorothy Adams, the "leading lady" was entertained while here by Miss Janet Vallance, an old school friend.

The work of putting the courts of the V. A. A. tennis club into shape has now commenced. These courts, when completed will be hard clay and the committee appointed to handle this work feel confident in saying that when finished the courts will be second to none in the valley. The courts should be ready to play on in about two weeks' time. All lovers of the game are asked to heartily support the association, whose desire it is to give sport to all, by becoming members of the V. A. A. tennis club. Membership tickets are \$5.00, ladies \$2.50. Tickets can be obtained from the committee, Col. Edgell.

W. McNair of Armstrong was in town yesterday.

The Vimy Ridge Chapter, I. O. O. F., are putting on a concert at the Empire Theatre on Monday, May 31. Proceeds will be donated to the Jubilee Hospital.

**MOTHERS' DAY**

Last Sunday, May 9, being Mothers' Day, the members of Ruoy Bible Class of the Methodist church, held a special session to celebrate and dedicate the day with all love, respect and honor, to the name of mother. There were fifty-eight people present at the afternoon session when the members of the Ruoy Bible Class took charge of the usual evening service in the church and a large congregation which overflowed into the gallery, thoroughly enjoyed the bright and attractive programme that was rendered by the different members taking part. Mr. A. C. Browne, president of the class, presided and the following programme was given:

1. Hymn 56, (1 Canadian); 2. Prayer; 3. The President; 4. Lesson; 5. Miss M. Doherty, Mr. A. Conklin; 6. Address; Mr. A. C. Brown; 7. Solo, "Oh Mother, When I Think of Thee," Mr. M. White; 8. Recitation, "My Mother," Miss H. Cryderman; 9. Hymn 486; 10. "Bible Stories that Mother Used to Tell," Miss W. Browne; 11. Solo, "Promise made to Mother," Mrs. H. Phillips; 12. Recitation, "Mother," Miss J. Hunter; 13. Offering and Announcements; 14. Solo, "Mother's Prayer," Miss P. White; 15. Hymn 525; 16. Address, "This Mother kept all these anying in her heart," St. Luke, ch. 2, vs. 51, Mr. O. White; 17. Solo, "Tell Mother I'll be There," Mr. D. Bell; 18. Hymn 237. Benediction, Veep.

**A FINE SHOW**

(Continued from Page 1.)

of histrionic art. Another leading character who came in for well merited praise, was Mr. Fisher in his difficult part of Robert Tarver, the "personage."

If one were inclined to be hypercritical it might perhaps be hinted that an improvement could be introduced in the make-up of Admiral Grice, who seemed to be a trifle decrepit to meet the popular conception of an old "sea dog."

Every seat in the house appeared to be occupied, and a more enthusiastic audience has seldom been seen in Vernon. Frequent and long-sustained outbursts of applause, and an almost continuous ripple of laughter testified to the enjoyment of the house, and it is safe to predict that should the Uni-

versity Players return here next season they will receive a welcome such as will make something more than a one-night performance necessary.

**The Cast.**

The cast was as follows:  
William Faraday .....  
..... Mr. A. E. Lord, Arts '21  
Celia Faraday, his eldest daughter, .....  
..... Miss Dorothy Adams, Arts '21  
Evelyn, Lady Trenchard .....  
..... Miss Kirsteen Leveson, Arts '23  
Madge, Mrs. Rockingham .....  
..... Miss Dorothy Gill, Arts '22  
Phyllis, thoughtless youngest sister .....  
..... Miss Alfreda Berkeley, Arts '23  
Mrs. Chisholm Faraday, of Chicago .....  
..... Miss Isabel Miller, Arts '22  
Admiral Grice, an old family friend .....  
..... Mr. Joe de Pencier, Arts '21  
Robert Tarver, a personage .....  
..... Mr. Lacey J. Fisher, Arts '21  
James Raleigh .....  
..... Mr. Harold L. Hunter, Arts '22  
Henry Steele .....  
..... Mr. G. Hilbert Scott, Arts '23  
Colonel Smith .....  
..... Mr. G. W. Bruce Fraser, Arts '22  
Martin, the Faraday butler .....  
..... Mr. Alphonse Crawford, Arts '22

**VERNON WEATHER.**

Following are the daily readings of the thermometer for the week as taken by A. L. C. Madden at his local observatory:—

	Max.	Min.
May 5.....	69	39
" 6.....	74	38
" 7.....	80	40
" 8.....	71	46
" 9.....	65	41
" 10.....	70	44
" 11.....	69	45

**A BLUE OUTLOOK.**

Winnipeg, May 12.—Only about forty per cent. of Manitoba's wheat lands can be worked this season, unless there is a marked increase in the number of people willing to go to work on farms during the next few weeks, Manitoba farmers say. According to T. J. Mather of the Dominion Employment Bureau the number of situations left unfilled at the end of last week was nearly three times the number of applicants unplaced.

**FALSE PROSPERITY.**

Ottawa, May 12.—The Board of Commerce of Canada will hold a hearing in the Board's office, May 25, for the purpose of further investigating into the sugar situation, as to costs, present and future. Eastern sugar refiners will be requested to attend this hearing, and wholesalers, retailers and consumers are invited to attend for the purpose of giving such information as appears desirable in determining the future policy of the Board on the sugar situation.

## OKYAMA

Oyama school report for April, names in order of merit:

Division I—Preliminary High School:

1, George Hembling; 2, Vera Evans; 3, Edith Quinlan; 4, George Evans; 5, Charles

Richard; 6, Ruth Cassidy; 7, Thomas

Towngood; 8, Junior Fourth; 9, Kenneth

Dobson; 10, Eldred Evans; 11, Dorothy

Rea; 12, Robert Rayburn; 13, John Cum-

ings; 14, Patrick Bowsher; 15, James

Sadler; 16, Christopher Dobson; 17, Ewald

Thirld; 18, Lillian Hembling; 19, Evaline

Scott; 20, John Young; 21, Frank Thom-

son; 22, Leon Irvine; 23, Ira Thomson; 24,

Lorne Irvine; 25, Laura Rea.

Division II—Jr. III Reader:

1, Margaret Hembling; 2, Eunice Rayburn; 3,

Neta Geer; 4, Florence Cassidy; 5,

Gordon McClure; 6, Alex. Phillips; 7,

Elmer Crawford; 8, Alex. Phillips; 9,

Beatrice Beller; 10, Richard Young;

11, Allister Geer; 12, Alice Towngood;

13, H. Reader; 14, Margaret Macleod; 15,

Roma Thomson; 16, Jack Potchecary; 17,

Grace Kerfoot; 18, Kendrick Wynne; 19,

I. Reader; 20, Betty Phillips; 21, Oscar

Kerfoot; 22, George Potchecary; 23, Charles

Thomson; 24, Betty Byers; 25, Dorothy

Bowsher; 26, Gordon Griffith; 27, Ronald

Allingham.

Next Friday evening a school con-

cert and entertainment will be held in

the Oyama Hall at 8 o'clock sharp.

The funds obtained from this even-

ing's entertainment are to be expended

on a school library, something appar-

tly much needed at the present time.

We hope a large number of people as

many as possible will turn out, for

little bits heard now and then we feel

it is going to be something good. Next

Friday evening, May 14th.

Charles Richards is offered many

congratulations from us all. His name

has appeared on the list as winning a

certificate of merit in the Hudson's

Bay school children's competition.

Oyama is indeed very proud of this

winning competitor.

Quite a number of Oyama folks went

to Vernon to see "Green Stockings"

as also a large percentage of our popu-

lation were present at the evening's

performance of the "Mikado" the

previous week.

A very beautiful home is to be built

on "Shaughnessy Heights" of Wood's

Lake. Mr. J. Stevenson, the owner cer-

tainly plans to have a very desirable

home to which he will bring his bride.

We would like to offer our hearty con-

gratulations and good wishes to Miss

Dorothy and her fiancé. We wish them

very many happy years together.

On Saturday last young Mr. Robert-

son went into Vernon to meet his

mother, Mrs. Robertson and son Keith

who came in from Fort William, Ont.

This is another new family making

their home in this district and we hope

they will have many pleasant times.

Mr. and Mrs. J. Newton have moved

up on their newly acquired ranch.

They had been spending the winter at

Juniper Cottage but now intend ranch-

ing quite properly, having already

procured chickens and pigs, also a cow

and a calf.

The way people are flocking to build

homes on "Shaughnessy Heights" is

something unheard of. "What's in a

name?" somebody called it "Shack-

ville" once!

We believe a number of our young-

sters intend going in to the sports

given by the Hudson's Bay Co. on

Thursday afternoon. A very nice

invitation came to this school from the

H. B. Co. and in spite of a very im-

portant water meeting, etc., to be held

in the Oyama hall this same day, where

the dads will be assembled, even so the

children are very determined to sport

on Vernon.

Young street has another tenant.

Mr. Jones and family have built a

pretty little bungalow home on the

property formerly owned by Mr. B.

Trask at the extreme north end of the

street.

The home of Mrs. Spalgh has been

moved on to its new lot, and now

stands on the extreme edge looking

south, also looking very unique.

It appears that a slight controversy

has arisen. Who owns the shed? As

far as we can remember several years

ago, pre war date, the young people

got up an evening's entertainment to

secure funds for lumber and the labor

was voluntary. The shed was "for

horses and buggies" and since the

school was used for church services the

shed was used by both and all, and

very useful it was. The children had

many good games in it. It is suggest-

ed that it might be used as a tool and

gardening shed in connection with the

school, when the manual training

classes start.

## ARMSTRONG

Mr. Wm. Russell of Enderby, was in

Armstrong on Tuesday.

Mr. Joe Stings was a visitor to the

O. K. Landing on Wednesday.

Mr. Porwood returned home on Wed-

nesday from the coast.

Mr. G. H. Monk was a visitor to Ver-

non on Wednesday.

Mrs. Hitchen was a visitor to Vernon

on Wednesday last.

Mr. and Mrs. Frank Marshall were

visitors to Vernon on Wednesday.

Mr. J. Robb left on Thursday for

Winnipeg where he will visit for a

short time with friends before leaving

for Toronto, Ont.

Mr. G. Wynt returned home on

Thursday from Red Deer, Alberta,

where he has been for the past two

months or more.

Mr. W. Jones has returned home from

Kamloops and is again back in Mr.

Frederick Murray's butcher shop.

Mrs. J. H. Murphy was a visitor in

Armstrong on Saturday.

Mrs. R. B. Horn left on Saturday for

Vancouver, where she intends to re-

main for a month or so.

Mr. Hyatt left for Vernon on Monday.

Mr. Wm. Kington left on Monday

for Clearwater, Alberta, for a few

months and then will return to the

coast.

Mr. and Mrs. W. E. Chapple returned

home from the coast on Monday.

## ENDERBY

Frank Pearson, who made his home

## Contrast

Is sought this season, and in the newest stripes and smart effects, the different note needed is emphasized. Call and look over our line of Neckwear and Haberdashery.

Have you seen our complete line of shirts for every occasion? It's worth your while to call and look over our stock. Come soon!

## W. G. McKenzie & Son

MEN'S OUTFITTERS

### LEAGUE POST FOR ONTARIO OFFICIAL

Toronto, May 10.—Dr. W. A. Riddell has tendered his resignation as deputy minister of labor to the Ontario Government and has accepted a position in the International labor office of the Immigration and employment section

and probably will make his headquarters in Geneva, Switzerland.  
Wife—It's great to be a man. One dress suit lasts for years, while a woman must have a new dress for every party.  
Hub—Yes, that's why one dress suit last a man for years and years.

### HAPPENINGS THROUGHOUT THE DISTRICT

#### WESTBANK

The regular monthly meeting of the Westbank Farmers' Institute was held on the 4th, this being the first Tuesday in the month. The attendance was very small, only nine members being present. The principal business considered was with regard to our wharf. The secretary read a letter from the district engineer's office at Chase, B. C., stating that all the repairs to be done this spring have been completed, with the exception of some spring piling. Further, the letter stated that up to the present time no appropriation had been made for building a new wharf, but that the matter had not yet been thoroughly dealt with at Ottawa. There was also a letter from Hon. Martin Burrell in which he gave us like information but more in detail. Also, he assured us that in the event of a new wharf being built, no change in location was to be made, but that it could be built on, or close to the site of the present wharf. Another matter commanding considerable attention was in regard to the formation of a co-operative association here. Complete data on the manner of organization, management, etc., had been received from the Co-operative Association at Salmon Arm. However, the attendance being so small, it was decided to bring the matter up again at the next Institute meeting, as nothing could be done with so few representatives of our community present. Other matters discussed were the intended increase in rates on freight and express shipments, purchasing of stumping powder, etc., and the advisability of forming a Women's Institute here. The last matter was up for consideration some time ago, but was allowed to lapse. The question now is: "Do we, or don't we?" It's up to our women now to say whether they want it or not. Women's Institutes have done very beneficial work in other communities, why not here? All members of the Institute are requested to attend the next meeting, June 1st.

The little Cleveland tractor which Mr. Hirose has hired to plow out the alfalfa in his orchard arrived last Wednesday. To see the machine at work is to be convinced that it is far better for orchard work than a team on the farm, as well as in the city, the gas engine is fast taking the place of horse-power.

As another strong plea for a larger wharf immediately, we relate the following: At present, a large part of our wharf is occupied by a pile-driver and engine, and other freight. Turning around with a team and wagon is always a awkward job on such a narrow wharf (it is not over thirty feet in width) and with all the freight taking up so much space, turning is made doubly hard. On Friday, Les Hewlett was down for a load of lumber, and in getting into position, all team based just a little too far. Those extra steps back were just enough to allow the rear wheels to go over the edge, and the weight of the wagon pulled team and all overboard. Fortunately, Leslie was not on the wagon, or the accident would have been serious. As it was, the reach broke, and the team swam under the wharf and ashore, pulling the front wheels with them. Now, had the wharf been wider, or had there even been bumpers around the edge, this would not have happened. Why is it that men who are not acquainted with conditions here seem to think that our present wharf-space is large enough? This is not the first accident of the kind that has happened there, and who knows when there may be another, unless something be done immediately to prevent it? The present wharf is certainly not large enough to handle Westbank's growing trade with any degree of safety, for in the fruit season last year there was hardly enough room for one vehicle to drive onto the wharf, let alone turning around while there. Can no one start the wheels turning in the right direction to remedy matters here? A wit remarks that we will have to grow web-feet, if we intend to work around the wharf much.

Commodore Excell of the C.P.S.S. Siamon spent the week-end in town. Mr. K. P. Keeler brought home Dodge home with him on Saturday. Our swains with horses and bicycles will have to look out.

Monday seemed to be an unlucky day for teamsters, there being two run-aways. Mr. Geo. Hewlett received a sprained ankle in the fracas with the team he was driving.

#### PENTICTON

The site of the new memorial monument for Penticton's fallen heroes will be the angle in front of the high school building as the final committee vote was overwhelmingly in favor of this site.

A shipment of new band instruments has arrived in town and canvassers for funds are meeting with good success. The hardware business which has been under the direct control of H. B. Morley for three years past has been purchased by J. S. Johnston, a hardware man of long and wide experience, who has been in business for many years in Vancouver.

A big crowd attended the choir concert held in the Methodist Church on Monday night. Mrs. (Dr.) McGregor was in attendance and ably assisted in the programme. Mr. J. H. Glass acted as chairman.

It is now definitely stated that Mr. Potter, for many years the proprietor of the Glen Confectionery and Tea Rooms, has disposed of his business. His successors being Mrs. M. Erickson and Mr. J. V. Gonnley, and it is Mr. Potter's wish that the same courtesy and generous patronage be accorded to the new proprietors.

The ice season has opened in Penticton as it is stated that the cold storage company are now manufacturing ice and that there is to be two weekly deliveries. The company is also putting up soft drinks in good variety and it is expected that this branch of the industry will greatly increase as summer advances. Mr. Russell Wells is in full charge of these industries.

Mr. Edmund Booth and Mr. Hosking drove to Summerland on Tuesday, spending the day there on business.

It is very probable that the Turf Club will hold their regular annual sports here this year, and for this reason President McGregor called a meeting to be held in the council chamber on Tuesday night. Dominion Day has always been chosen and the sports held on the recreation grounds.

Mr. R. T. McDowell with his wife and family have recently come in from Calgary. Mr. McDowell has purchased the Dalnes home on White Avenue.

The Rehoboth of town entertained a number of the Summerland Oddfellows in their lodge rooms on Monday night.

After attending the annual meeting of their company in Hamilton, Ont., Manager J. T. Armstrong of the Bank of Hamilton has returned.

Mothers' Day is to be observed in the Methodist Church on Sunday next, and Mrs. (Dr.) McGregor is to assist with the services.

Mr. W. Carter, recently from Island, preached at the morning service at the Methodist Church on Sunday.

We regret to learn that Mr. W. A. McKenzie, M.L.A., is laid up this week with a twisted ankle as the result of a fall.

Canvassers are now busy selling tickets for the three days' Chautauqua to be held here on May 15, 17, 18.

A very enjoyable social evening was spent at Poplar Grove on Thursday evening last when a whist drive and dance was held, many of the Penticton people driving out there to partake of the pleasure. Mrs. B. A. Fraser of town supplied the music and Mrs. McGregor gave a couple of readings. The ladies' first prize was captured by Mrs. Faith Brum and the gentlemen's prize by Mr. E. Carter.

children have decided to spend another month, they are so pleased with the place, climate and scenery.

Mr. F. J. Day spent Saturday with his friend Mr. Otto Gaube.

Mr. and Mrs. W. A. Wagenhauser have recently moved into their new home on Hansen Street.

Mr. and Mrs. Mitchell have taken up residence in the home formerly owned by Mr. F. Law on Fairview Avenue.

Mrs. J. H. Norden has got nicely settled in her new home on Rigsby Street.

Mr. and Mrs. J. A. Bishop have gone on a trip to Calgary, Alberta.

The Penticton Brass Band has been engaged to play at Keremeos on May 24th.

The Penticton Methodist Church Choir concert which was given at Naramata on Wednesday night attracted a large number of people in that district and many motor cars went from here.

Mrs. T. I. Williams of Naramata was a visitor to Penticton on Friday, leaving town again on the Saturday morning's boat.

The I. O. O. F. held its usual monthly meeting at the home of Mrs. Silk on Ellis Street where Mrs. (Dr.) R. B. White was duly elected to represent the Penticton Chapter at the National Annual Conference to be held at Calgary, Alberta, some time in May.

It is reported around town that there is liable to be a joint church service to be held in the Chautauqua tent on Sunday, May 16, at which Professor Osborne (one of the Chautauqua lecturers) will preach, and it is also probable that the different choirs from the various churches will unite. It is also stated that the local committee in charge of the affair anticipates that from now on it will be an annual affair in Penticton.

A dance is being planned by the local order of the I. O. O. F. for June 3rd (the King's Birthday) to raise funds to purchase a war canoe for the Cadets.

A very enjoyable piano recital was given by the pupils of Mrs. Grant Munshaw on Thursday evening last in Burche's Hall which was in every way a success as recitals of this nature go. Mrs. Munshaw gave a most interesting lecture on "The First-Ten Centuries of Christian Music." It is Mrs. Munshaw's idea to instruct her music pupils along theoretical lines as well as the practical teaching of music.

People who are out selling tickets for the coming Chautauqua say that there is a lively demand owing to the fact that on the opening day the said tickets will advance in price.

Irrigation Superintendent Jackson reports that conditions this year are very favorable for the orchards on account of heavy snowfalls up in on the mountains.

It is reported that the well-known European humorist, Dr. J. A. Armand, of London, England, will be here with the Chautauqua.

At a meeting of the Penticton School Board held on Wednesday night it was proposed that instruction in music be introduced into the public schools among the primary and junior divisions, which is certainly a move in the right direction.

The opening Aquatic dance held in the Aquatic Club rooms on Friday night was in every way a huge success. The building was full to the very doors and many people turned away on account of lack of space. The music and supper was reported good, and every one came away happy.

Mr. D. A. Budge, Sr., of Montreal is about to address the Young People's Association of Penticton in the Presbyterian Church on Wednesday night.

Mr. Ben Priest, funeral director, has opened up parlors on Front Street.

Mr. and Mrs. Doble and family visited Penticton on Saturday, and if they can find a suitable dwelling house will locate here.

A meeting of the Women's Auxiliary to the G. W. V. A. was held on Monday afternoon at the home of Mrs. Corbushy on the bench.

Mr. E. W. Munson of Los Angeles, a lecturer for the Theosophical Society, will be here on Thursday night to speak on "The Science of the Borderland," an interesting study of spiritualism as outlined by Sir Oliver Lodge. It is expected that there will be a big turnout to hear him. The meeting will be held in Burche's Hall.

Quite a number of the young men and boys of town are making plans for a social evening and dance to be given in Burche's Hall in the near future.

The president of the "Baby Branch" of the Women's Auxiliary in connection with the Anglican Church gave a very pleasant little treat for the little children in the parish rooms on Wednesday afternoon.

#### GLENEMMA

Mr. and Mrs. J. Pearse of Six-Mile Creek were visitors at Glenemma on Friday.

Mr. L. Brydon of China Valley went through to Armstrong on Tuesday.

Mrs. C. S. Hall was a visitor at Falkland on Saturday.

Mr. A. J. Heywood went through to Grand Prairie on Wednesday.

Mrs. Manson of Grand Prairie and Mrs. J. Allen of Falkland were visitors at Glenemma on Wednesday.

Mr. R. Ruffan motored through to Enderby on Thursday after men to work in the sawmill at Falkland.

Report says there is to be another dance in the near future in the pool-room at Falkland, so we are looking forward to another good time.

Mr. and Mrs. W. West motored through to Kamloops on Thursday after spending a few days in Vernon.

(Additional District News on Page 10.)

#### IGNORES MESSAGE.

London, May 6.—Premier Lloyd George will not take cognizance of the message from United States congressmen relative to Ireland.

"This sort of thing has ceased to cause any stir here," an official at 10 Downing Street told the Associated Press this morning. "We long since have come to believe that resolutions and messages coming from America are political manoeuvres, and that they do not represent American sentiment. Consequently, they have little weight."

#### MORGENTHAU WILL GO TO MEXICO

New York, May 10.—Henry Morgenthau, nominated by President Wilson as ambassador to Mexico, issued a statement today denying reports that he would decline to accept the post if confirmed by the Senate.

## HUDSON'S BAY ADVENTURERS

(By Wm. Houston, in the Toronto Globe.)

On the second of May it will be exactly two centuries and a half since Charles II, the British King "who never said a foolish thing and never did a wise one," signed a charter that conveyed certain trading and territorial privileges to his cavalier cousin, "Prince Rupert of the Rhine," and seventeen other "noblemen and gentlemen," incorporating them as the "Governor and Company of Adventurers of England trading into Hudson's Bay." This charter is still in active existence, and the chief officer of the Company is still its "Governor." The present holder of the office and title arrived in America a few days ago to take part in the commemoration of its two hundred and fiftieth anniversary, which will be celebrated at several places in the Canadian West, notably Winnipeg, the Company's old "Fort Garry," Edmonton, the starting point of exploratory expeditions to the Pacific and Arctic Oceans, and Victoria, started as "Fort Victoria" by Sir James Douglas when the Company was by the Ocean Treaty of 148 constrained to abandon its Fort Vancouver, on the Columbia River, in Washington State.

**The Tragedy of Henry Hudson.**  
Hudson's Bay was discovered in 1610 by Henry Hudson, one of the most deservedly famous among the many early explorers of the eastern shore of North America. With an inadequate equipment and a mutinous crew he discovered and traversed the Strait and Bay that bear his name. After wintering in the Bay he was, with his son and five sick sailors, sent adrift by his crew to perish in the waste of waters which is his "tomb and his monument."

Two generations were to elapse before the issue of the charter to the Hudson's Bay Company, to which was granted under its terms the sole trade and commerce of all those seas, straits, bays, rivers, lakes, creeks and sounds, in whatsoever latitude they shall be, that lie within the entrance of Hudson's Strait.  
The Company eventually interpreted this description to make it signify all the region drained by streams flowing into Hudson's Bay, which included the area traversed by the Winnipeg and Red Rivers, by the Nelson River, with its Saskatchewan tributaries; and by the streams flowing into James and Hudson's Bays from the south and east. To this immense expanse the Company subsequently added by exploration the area tributary to the Arctic Ocean, and it acquired later by treaty the control of the trade of the Pacific slope from the Columbia River to the southern verge of the territory claimed by Russia as part of Alaska.

**The Treaty of Utrecht.**  
For many years a few small forts along the shore of Hudson's Bay, built to facilitate the fur trade with the Indians, were the only sign of settlement. French expeditions from Canada kept the territory in a state of turmoil, until the disputes were brought to an end by the Treaty of Utrecht, in 1713, which gave Britain full possession of the whole Hudson's Bay territory, as well as Acadia and Newfoundland. When Canada became British, in 1763, individual French adventurers gave the Company much trouble, being able to pass into the interior by way of the St. Lawrence and Winnipeg Rivers. Eventually, enterprising individual traders, with

**GREENWOOD WINS  
BY BIG MAJORITY**  
Chief Secretary for Ireland Polls  
More Votes Than His Two  
Opponents.  
Sunderland, England, May 7.—Sir Hamar Greenwood, chief secretary for Ireland, was re-elected to parliament by a landslide victory in the election of the House of Commons. Every attentive student of the history of the northern half of this continent will frankly admit that the tenacious hold of the Hudson's Bay Company on the region west from the Bay to the Rockies had much to do with making practicable the evolution of the Dominion of Canada.

Hamilin's Wizard Oil a Safe  
First Aid Treatment  
How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut? Hamilin's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection.  
It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. As reliable, too, for stiff neck, sore feet, cold sores, canker sores, earache and toothache.  
Get it from drug stores for 30 cents. Get it from drug stores for 30 cents. Ever contipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 50 cents. Guaranteed.

## MRS. W. F. ROGERS GAINS 20 POUNDS

Change of Climate Was Not  
Necessary After She Took  
Tanlac, She Says.

"As long as I live I will never be able to praise Tanlac enough for it has not only given me back my health after I had given up hope but it had added twenty pounds to my weight," was the statement made by Mrs. W. F. Rogers of 620 Tenth Avenue Northeast, Calgary, Alberta.  
"There is nothing in the world I would exchange for the good Tanlac has done me," she continued. "Why, just to think only a short time ago I was a complete wreck and here I am now eating as fine as I ever did in my whole life; it just seems too good to be true."  
"I was in a miserable condition and I can hardly understand how I held out as long as I did. My nerves were completely shattered and at times I could not even bear or anyone to talk to me, and a knock or ring at the door would unnerve me. There was little need of going to bed at night for sleep was next to impossible and I would be up reading or walking the floor when most people were sound asleep. I had almost no appetite at all and what little I forced myself to eat didn't give me a particle of strength and for years I had been losing strength right along until I was on the verge of a complete nervous breakdown. I took every kind of medicine and treatment I ever heard of, but none of them did me any good and I thought maybe a change of climate would help me."  
"I was making arrangements for the change when I began taking Tanlac, but soon I saw that a remarkable improvement in my condition right away, that I postponed the trip for a while, and now that I am in perfect health I have called it off altogether. I have never seen such a wonderful change come over a person in all my life as the change that has come over me; I can hardly realize it myself. My nerves are as steady as they can be, no kind of noise disturbs me at all and I can sleep fine. My appetite has come back and everything I eat agrees with me and is giving me strength and energy, and as I said I have gained twenty pounds in weight. I haven't a trouble of any kind and just simply couldn't ask to be in better health and I will praise Tanlac as to my dying day."  
Tanlac is sold in Vernon by R. E. Berry, and by the leading druggist in every town.—Advt.

licious campaign, which, he declared, was destroying friendly relations between this country and the United States. To this Mr. Bonar Law did not reply.  
Robert Burton Chadwick asked whether Mr. Bonar Law was aware that De Valera was recently honored with the freedom of New Orleans and whether any representations had been made to the United States in the face of "this deliberate insult by an ostensibly friendly power."  
Mr. Bonar Law answered that he was quite satisfied that the government of the United States was not represented at all by such demonstrations and he did not believe that any action the British Government could take against them would have any other effect than to make relations worse.

## URGES HIGHER RAILWAY RATES

President E. W. Beatty Delivers  
Annual Address to C. P. R.  
Shareholders.

Montreal, May 8.—Reconsideration of an increase in freight rates was declared necessary by Mr. E. W. Beatty, president of the Canadian Pacific Railway Company, at the annual meeting of its shareholders held here this week. Mr. Beatty pointed out that the net earnings showed decreases on previous years because of the rise in the cost of wages and material. He said that the relations between earnings and expenses must receive careful attention. The extent of rate increases fixed by the Dominion Railway Commission has not equalled the increased costs forced on all railway companies.  
Mr. Beatty went on to point out that owing to the peculiar conditions existing between the United States and Canada, the Canadian roads during the war had accepted high wage scales made effective under government control of the American roads and had to continue to operate under similar tariff tolls. These tariffs were entirely inadequate, as results in the United States showed. He declared that he assured American carriers of rates which would return a fixed percentage of the value of the undertakings used in the public service. No doubt the necessity for rate adjustments would be given earnest consideration by both the Canadian Government and the Dominion Railway Board, Mr. Beatty stated.

**Net Earnings Less.**  
Emphasizing the need for increased revenue Mr. Beatty declared that while the gross earnings of the company were the largest in its history, and exceeded the earnings of 1919 by \$19,391,362, the net earnings were less by \$1,569,351.  
"The large increase in working expenses of \$20,960,713, following as it does an increase of \$17,191,993 in the working expenses during the year 1919, the net increase of 1919 over 1917 of \$28,162,706, is a striking example of the effect of the increased cost of wages and material," added the president.

The net earnings for 1919, he said, represented a return of only 4 per cent. on the actual cash invested in the railway itself.  
Any industry conducting so extensive an enterprise must have reasonable surpluses, yet, with the Canadian Pacific Railway, the surplus (\$844,249) after deduction of fixed charges and dividends, amounted to less than half of 1 per cent. of the gross earnings.

**Recent Increases.**  
Comparing the operating expenses now with those of half a decade ago Mr. Beatty showed that in 1914, with a mileage somewhat less than the present mileage of last year, they were \$87,288,000, while for the year 1919 they had climbed to practically \$144,000,000, an increase of 64 per cent. Within that period increases of nominally 40 per cent. in freight rates and 15 per cent. in passenger rates had been authorized by the Railway Commission. The actual increases owing to the adjustment of rates made by direction of the board were in fact 30 per cent. in freight rates and 10 per cent. in passenger rates.  
**Two Theories.**  
In the discussion which had taken place as to the desirability or other-

wise, of increased rates, and therefore increased revenues to the Canadian railways, two theories were publicly mentioned, said Mr. Beatty. The first, that rates should be increased, but that any surplus earnings thereby accruing to the company should be taken back through the medium of special taxes, and the second, that rates should not be increased, but that the government railway deficits, if such occur, should be met out of the general revenues of the country.  
Both theories were in his opinion unsound. The first amounted to confiscation of profits, he said, declaring that there could be nothing but "doubtful honesty in the proposal that one company's revenues accruing to it from service actually rendered by it, and well performed, should be taken from it to supplement the revenues of a competitor, whose operations do not show favorable results."  
The second theory that rates should not be increased, but that any deficits should be met from the general revenues of the country, was unsound economically and unfair alike to government-owned and other railways.  
Properties of the Canadian Pacific, said the president, were in excellent condition, and at no time in its history had it been better equipped to perform its public service, or to play its full part in advancement of transportation future in Canada.  
**Larger Directorate.**  
Explaining the application to amend the charter to increase the number of directors from fifteen to eighteen, Mr. Beatty said the statute was purely empowering, its purpose being to secure, if necessary, a larger representation on the board from those portions of Canada in which the company's interests are especially important.  
In conclusion the president said: "I look forward to immigration to Canada in large scale and, while the period of retrenchment and financial conservatism may be the part of wisdom, your directors have the same implicit faith in the future growth and prosperity of the country that they have always had, and also the same confidence in the ability of your company to play an important part in its development and prosperity."  
Four retiring directors, Sir John C. Eaton, Grant Hall, Sir Vincent Meredith, Bart., and Sir Augustus Nanton, were re-elected.  
At the meeting of the board subsequently held, Lord Shaughnessy was elected chairman, E. W. Beatty president, and Grant Hall vice-president. The executive committee was appointed as follows: Richard B. Angus, E. W. Beatty, Grant Hall, Sir Herbert Holt, Sir Edmund Ouler and Lord Shaughnessy.

**BOARD WOULD GRANT  
VOTES TO INDIANS**  
Ottawa, May 8.—An amicable ending to the controversy on compulsory enfranchisement of Indians has practically been reached, according to authoritative reports today.  
The proposal is to form a board composed of two members of the Indian Department, one Indian appointed by the council of the band affected, and allow this board to pass on all cases where it is deemed advisable an Indian should be enfranchised.

Professor (giving exam): "Does any question embarrass you?" Bright Student: "Not at all sir. Not at all. The questions are quite clear. It is the answers that bother me."

**A  
Terrible  
Penalty**  
frequently follows the neglect of an injury. Germs and dust get into the wound, it begins to fester, blood-poisoning sets in, and sometimes the loss of a limb is the result.  
Safeguard yourself against such a possibility by applying Zam-Buk at once. This antiseptic balm destroys all germs and prevents festering and blood-poisoning. Then the healing essences promote the growth of new tissue and it is not long before the wound is completely healed.  
Zam-Buk should be kept handy in every home, office, store and factory for cuts, scratches, burns, scalds and bruises. It is equally good for eczema, rashes, boils and ulcers. All dealers, 50c. box.

Phone 422.

## EXTENSION GIVEN FOR LIQUOR EXPORT

Calgary, May 10.—Wholesale liquor warehouses in Alberta that were to have been closed today have received an extension of twelve days in order to get rid of their stocks, according to a statement made by Charles Bell of the company of the Charles Bell Liquors Limited. This extension, he said, had been granted by the Attorney-General's department.

It is said that there are stocks valued approximately at one and a quarter million dollars in Calgary alone.

## CANADA'S MINISTER.

London, May 11.—Mr. Andrew Bonar Law made the announcement in the House of Commons last night that in order that Canada should have more complete representation at Washington, the King would appoint a minister plenipotentiary to have charge of Canadian affairs, acting solely upon instructions from the Canadian Government.

## PEACE RESOLUTION VOTE DURING WEEK

Washington, May 11.—Injection of the League of Nations issues into the campaign is "a colossal blunder," Senator McCumber, Republican of North Dakota, declared to the Senate today in a speech on the Knox peace resolution. McCumber laid this blunder to the President's door.

In calling up the peace resolution today Senator Lodge announced that he would keep it continuously before the Senate until acted upon. Lodge indicated he hoped for a vote late this week.

Geraldine—What do you advise for a headache?  
Geraldine—Removing the cause.  
Geraldine—But I should think you would hate to lose your head very often.

## The Ideal Investment

E. C. WILLET, Agent.  
Armstrong, B.C.

## When Replying to Advertisements

on this Page, Mention "The News"

# Penticton Development and Exploration Co., Ltd.

REGISTERED OFFICE: PENTICTON

"Many old-timers will remember that twenty years or more ago the mineral claim which Robt. Wood and Clement Vacher were developing on the lake shore at Penticton was regarded as one of the most promising mining ventures in the province. Lack of capital and inadequate transportation facilities caused the original promoters to suspend operations, but a new company has been formed to open up the property, and an advertisement in this issue announces that A. S. Dodd has been appointed the local agent."—Extract from The Vernon News, May 6th, 1920.

I have made arrangements with Mr. Fernie of the OKANAGAN ELECTRIC, next to Hudson's Bay Co., and I will have a demonstration of ore from the Lakeshore Mine, Penticton, in his window on Saturday next, May 15th.

Prospectus, maps, photos, etc., on hand. Don't fail to call in.

60,400 SHARES AT \$1.00 PER SHARE

Archie S. Dodd

Sales Agent for Vernon and District

Office 7th Street, VERNON, B.C.  
Phone 422.

## Jelly Powder.

With Sugar at a high price and preserved fruits getting low, there is an unusual demand for Jelly Powders from which can be made most delicious desserts at a very reasonable price. We have just received a shipment of Sherwin's High Grade Jelly Powder in the following flavors: Raspberry, Strawberry, Orange, Lemon, Pine Apple, Vanilla, Wild Cherry and Port. Price, per package 15c

## Hamster Farm Pure Orange Marmalade

Many prefer this brand to any other. Its really delicious. Large four pound tin for \$1.25  
Two-Minute On Food—Roll only minutes. One cup makes 5 cups. Price per package 20c

## SOMETHING NEW IN CANDY

Hamster Farm Edinburgh Rock in mixed flavors. Large size package for 75c

## Dried Peaches, of choice quality at per pound 35c

Van Houten's Cocoa in three sizes tins at 45c, 85c and \$1.20

## LEMON AND VANILLA EXTRACT

Recent Legislation passed by the B. C. Government prohibits the sale of lemon and vanilla extract after June 1st, the sale of 8 ounce bottles of Extract for household use. Having a large quantity of this size on hand we decided to reduce the price to 75c. The quality is the best and sells regularly at 90c. For about a week we have sold at this price and if you have not already bought it is to your interest to secure at once a good supply.

## Five Roses Flour, the world's best.

49 lb. bag for \$3.75

## Friday and Saturday Specials

Crisco—Used by many and preferred to all others for frying, shortening and for cake making. If you use Crisco, or would like to prove its worth, buy a tin on Friday or Saturday, when we sell the 3 lb. \$1.50 size for \$1.25

Quaker Rolled Oats is considered one of the best on the market. You know its high quality and to have a big sale we have only to announce the price. Large package on sale Friday and Saturday for 25c

## Bee Sea Brand Little Herrings in Tomato Sauce.

These are put up by Connors Bros., N. B., and are guaranteed quality. On sale Friday and Saturday, per tin 15c

## SUNSET SOAP DYES

do the work. Dye anything any shade. Sunset Soap Dye has distinct advantages over other dyes. They do not stain the hands or soil utensils used. No washing needed. Sunset Soap Dye washes the article and at the same time dyes them, thus saving extra labor and expense. Sunset are fast colors and will not wash out or fade. An outstanding feature is that these dyes will dye cotton, wool, mixed goods, and silk, giving the same shade and depth of shade at the same time. Buttons, knots, seams and silk threads are dyed thoroughly, thus there is no need to take garments apart or take out sleeves or linings. One cake of Sunset Dye will dye a pound of goods. An assortment of twenty colors. Price per cake 15c, 2 for 25c

## Don't delay securing your Season Ticket for the Chautauque, May 14th, 16th and 19th.
